Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) with various electronic components soldered onto it. The board is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom edges of the board, showing measurements in millimeters. The components include a large central chip, several smaller chips, resistors, and capacitors. A white antenna module is visible on the left side of the board.
Antenna View	 A close-up photograph of the antenna module on the PCB. A red box highlights the antenna component, and a red line points from the text "WIFI Antenna" to it. The antenna module is a white rectangular component with a QR code and text on its surface. The PCB is green and has various components soldered onto it.
