How to use the Base?

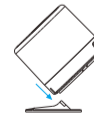

Desktop placement

Align the mounting socket of the base vertically with the plug of the base and push it to the end. You can choose either a 25-degree angle base or a 45-degree angle base as needed. (Figure 1)

Wall installation

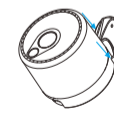

- Use screws to fix the base to the wall. (Figure 2)
- Insert the light into the base to use. (Figure 3)

(Figure 1)

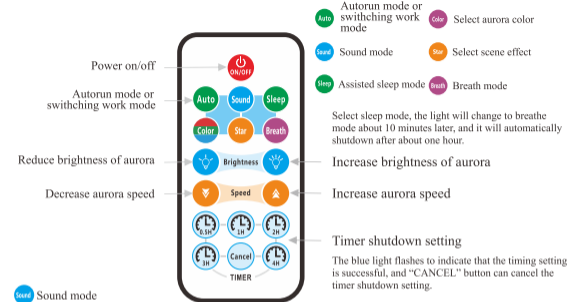

(Figure 2)

(Figure 3)

3

RF Remote control introduction

BATTERY INSTALLATION FOR REMOTE CONTROL

- Pull the battery tray out of the battery compartment of Remote Control.
- Place new CR2025 button cell battery in the tray slot, as per the indicated polarity.
- Close the battery tray.

Battery may not be included due to Aviation Safety.

4

Caution

- 1. Please do not look directly at the light source output hole of the projector light while using it, otherwise it may cause eyes discomfort.
- 2. This product is suitable for dry environments, and please avoid using it in humid, overheated, and dusty environments. Good heat dissipation around the product, away from flammable objects or liquids.

Specification:	
Aurora light color:	Red/Green/Blue
Starlight color:	Green
Light source:	LED
Adapter:	DC5V 1A(min)
Power input:	USB Type-C
Work mode:	Auto, Sound, Remote control
Product size:	ø3.3in*3in(ø85mm*77mm)
Packaging weight:	0.62lb(0.28kg)
Package size:	4.92*4*3.74in(125mm*102mm*95mm)

Packing List

Projector light : 1
Remote control : 1
USB cable : 1
User manual : 1
Base : 2

Shall include the statements:

- a) The statement “Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.”
 - b) The statement “Even used batteries may cause severe injury or death.”
 - c) The statement “Call a local poison control center for treatment information.”
 - d) A statement indicating the compatible battery type (e.g., Cr2025).
 - e) A statement indicating the nominal battery voltage (e.g., 3.0 V).
 - f) The statement “Non-rechargeable batteries are not to be recharged.”
 - g) The statement “Do not force discharge, recharge, disassemble, heat above (manufacturer's specified temperature rating) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.”
- For products with replaceable button/coin cell batteries shall additionally include:**
- a) The statement “Ensure the batteries are installed correctly according to polarity (+ and -).”
 - b) The statement “Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.”
 - c) The statement “Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.”
 - d) The statement “Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.”

⚠ WARNING

- **INGESTION HAZARD:**This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**
- **KEEP** new and used batteries **OUT OF REACH of CHILDREN**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or

television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

 **Warning**
Aperture do not expose to the naked eye, avoid direct eye contact. It is prohibits to expose the naked eyes directly to the projector light, otherwise it may injure the eyes.
