

# Modular Approval Request Letter

Date: July 14, 2022

**Subject: Modular Approval Attestation**

**FCC ID: 2A6PM-UA2-TMM-V2**

Dear Reviewer,

We, Sporton International Inc., are authorized by TRIO MOBIL INC, to have their TrioMobil UA Module approved under limited module approval authorization. The application of this module is specified to the host equipment (Brand: TRIO MOBIL ; Model: UA2-FRU1-V2, UA2-FRU2-V2). The requirements regulated in 47 CFR 15.212 have been fulfilled and clearly explained below.

1. The requirement of RF shielding: The module does not have its shielding on board. This is the reason why limited modular approval is applied.
2. The requirement of buffered inputs: Buffered data inputs stage has been integrated in chip (DWM1000).
3. The requirement of power supply regulation: The part number of the power regulator is (XCL222B181ER-G, XCL222B331ER-G).
4. The requirements of section 15.203 and 15.204(C): The module is equipped with a unique antenna connector of the surface mount which is permanently attached.
5. The requirement of stand-alone test configuration: Please reference exhibition Test Configuration Photo for the stand-alone test configuration.
6. The requirement of labeling: The instruction on the labeling rule of the end product has been stated in the users manual of this module. Please also see the exhibition Label Sample.
7. The requirement of compliance on specific rule or operating requirements: The module is intended to be installed in specific host. (Brand: TRIO MOBIL ; Model: UA2-FRU1-V2, UA2-FRU2-V2) The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the Users Manual.
8. The requirement of RF exposure: RF exposure evaluation exemption is applicable for this device.

Please do not hesitate to contact me for any questions of this request letter. Thank you.
