

# imoo X10 Manual

## 1. Package and Product Parameters

### Package Contents:

|          |   |                 |   |
|----------|---|-----------------|---|
| imoo X10 | 1 | Charging Cable  | 1 |
| Manual   | 1 | SIM Card Picker | 1 |

### Product Parameters:

Product: Watch Phone

Model: W2432AO

Battery: Lithium Polymer Battery Pack 3.87V 740mAh

Cameras: Front Camera 5MP, Rear Camera 8MP

Charge Input: DC 5V 2000mA

Working Temperature: 0°C~35°C

Working Humidity: Noncondensable 15%~93%

Network Frequency Bands:

2G GSM B2/B3/B5/B8

3G WCDMA B1/B2/B4/B5/B8

4G FDD-LTE B1/B2/B3/B4/B5/B8/B12/B13/B17/B18/B19/B20/B26/B28/B66

4G TD-LTE B38/B40/B41

Material Code: 5211883 Version: V1.0

## 2. Radio Waves Specifications

### Watch Face:

2G GSM :B2/B3 (30dBm±2dB)

2G GSM :B5/B8 (33dBm±2dB)

3G WCDMA :B1/B2/B4/B5/B8 (23dBm±2.7dB)

4G FDD-LTE :B1/B2/B3/B4/B5/B8/B12/B13/B17

/B18/B19/B20/B26/B28/B66(23dBm±2.7dB)

4G TD-LTE :B38/B40/B41 (23dBm±2.7dB)

Bluetooth: 5dBm(EIRP)

WiFi 2.4GHz: 10dBm(EIRP)

5G WiFi: 5.15-5.25GHz: 5dBm(EIRP);

5.25-5.35GHz: 5dBm(EIRP); 5.47-5.725GHz:

5dBm(EIRP); 5.725-5.85GHz: 4dBm(EIRP)

Rated Output Power

Power On: Press the On/Off button for 6

seconds to power on the watch.

Watch Back:

Lock Button

Rear Camera

Heart Rate & Body

Temperature Sensors

Charging Contact

Base

Front Camera

On/Off

SIM Card Deck

Speaker

Touch Screen

Charging Contact

Base

1. Press the lock button to flip the watch open and open the SIM card deck on the back of the watch using a SIM card picker.

2. Place the Nano SIM card on the card deck with the gold clip facing up and insert the SIM card deck into the back of the watch.

3. Power On: Press the On/Off button for 6

seconds to power on the watch.

4. Choose and Install SIM Card

5. Power On

6. Download the App & Bind the Watch

7. Step 1: Choose the Right SIM Card

The size of the SIM Card: Standard Nano SIM card only (as shown in 1).

Daotian: Please enable "Caller ID" function and enable GPRS data network. Watch phone can access either 2G/3G/4G network data.

8. Step 1: Download/Install the App

1. Scan the QR code shown to the right, or only (as shown in 1).

2. Go to Google Play or Apple App Store and search for "imoo Watch Phone", "imoo WatchPhone" to download and install the app.

9. Step 2: Bind the Watch

1. Open the app, register log in.

2. Slide the watch interface to find 'Bind Code' and scan the QR code or enter the bind code manually to bind the watch.

10. Get the Bind Code:

1. Tap Bind Code in the More screen to get the bind code; or

2. Scan the QR code or enter the bind code manually.

## 7. Charge

The watch is equipped with magnetic charging contacts. Please align the charging contacts on the watch with the contacts on the charging cable until "Charging" is displayed on the watch screen.

\*Please use a CE certified power adapter when connecting the charging cable to charge the watch.

## 8. OTA Upgrade

Check the watch's firmware version on the imoo app and turn on "Auto Update". The watch will then automatically download the software updates and complete the upgrade when it is charged and connected to the network.

\*Note: There may be security risks with informal root or system upgrades. The watch's operating system supports only official software updates. If the user performs an unofficial root or system upgrade, any security risks or losses resulting therefrom should be borne by the user (possible risks include, but are not limited to theft of the user's personal data).

## 9. Basic Operation

Another best time to measure your heart rate is right after you wake up in the morning (before you've gotten out of bed) and before you start moving around.

\*This product is not a medical device and the measurement results are for reference only and are not intended to be used as a basis for medical diagnosis.

## 10. Basic Features

Call: Please wear the watch appropriately, do not leave too much space between your wrist and the watch when the Home screen is on; or cover the screen with your hand; contacts sorting: "Recents" is at the top; contacts are sorted by the time they were added, with the most recently added contacts listed first. You can change the sorting by long-pressing and dragging the contacts' avatars.

Body temperature: Using a proprietary body temperature detection algorithm developed by imoo, therefrom should be borne by the user (possible risks include, but are not limited to theft of the user's personal data).

## Health

Move right from the Bind Code screen.

## Call

After entering each feature, you can slide right to exit the feature, as shown on the left. You can also press the On/Off button to return to the Home screen.

## Camera

Select a contact to make a voice or video call. Video calls can use a lot of network data. We recommend that you make video calls when you are connected to a Wi-Fi network.

If the app cannot receive the video call, check that notifications are enabled or that the call has not been blocked by the system.

## Chat

Tap the watch face to take a photo. You can switch to using the rear camera by flipping the watch face up. Then slide the screen up or down to switch between using the front or rear camera.

When using the rear camera, you can manually control the distance between the rear camera and the subject.

You can slide left or right on the screen to switch between "Videos" or "Photos".

## Wi-Fi Settings

Slide left from the Home screen to enter the "Chat", "Virtual Me", and "More" interfaces. Slide down from the Home screen to access the Control Center; You can tap them to open them.

Unread voice messages are displayed on the screen.

## Wi-Fi Settings

Slide left from the Home screen to enter the "Chat", "Virtual Me", and "More" interfaces. Slide down from the Home screen to access the Control Center; You can tap them to open them.

Unread voice messages are displayed on the screen.

## Statements

Please read this manual carefully so that you can use this product correctly and safely.

Please use the watch strap that is well matched to this product to avoid interfering with the watch's antenna signal. Use of other straps may result in poor call quality and locating failure.

This product is equipped with GPS locating, which is turned off until the watch is bound. You can check the location of the watch after it has been bound and the appropriate GPS access has been granted.

This product is not equipped with the monitoring feature.

This manual contains important information that should be kept safely.

For more details and information on this product, please visit <http://imoo.com/e-manual/>. Alternatively, you can scan the QR code on the back cover of this manual.

Please read the following contents carefully before using this product and observe them when using it. We accept no liability for the consequences of failure to use this product correctly or to follow the relevant instructions in this product.

--Consult the dealer or an experienced radio amateur for assistance in connecting the antenna to the receiver.

For environmental reasons, this product does not come with a power adapter. You can use the USB interface of your computer or the CE certified power adapter to charge. And the output voltage and current of the power adapter should meet the following specifications: DC output voltage: 5V; DC output current: not less than 2000mA.

Statement of Water Resistance:  
This watch is water-resistant to 30 meters in accordance with ISO 22810. Changes or modifications not expressed in writing and agreed upon by both parties will not be valid.

|  |   |
|--|---|
| <p>Water is water resistant to 20 meters in accordance with ISO 810: 2010. It can be worn for shallow water activities such as swimming in a pool, but is not suitable for diving or other activities beyond the specified depth.</p> <p>For advice on using this type of water resistant product, please visit <a href="http://imoo.com/e-manual/">ps://imoo.com/e-manual/</a>.</p> | <p>for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.</p> <p>If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> <li>--Reorient or relocate the receiving antenna.</li> <li>--Increase the separation between the equipment and receiver.</li> </ul> |
| <p><b>Exposure Information (SAR):</b></p> <p>The device complies with RF specifications when worn on your wrist at a distance of 10mm from your body. Ensure that the use of belts, holsters and similar accessories should not contain metallic components. Keep the device away from your body to meet the distance requirement.</p>   |   |
