| <p><b>EUT View 1</b></p> |  A black rectangular electronic unit, identified as 'mainstation' and 'MS-2', is shown against a blue background. To its right are several cables: a multi-colored ribbon cable, a black cable with a connector, a black cable with a USB-A connector, and a black cable with a multi-colored connector. A long metal ruler is placed vertically to the left of the device for scale. |
| <p><b>EUT View 2</b></p> |  A close-up view of the black rectangular electronic unit, showing the 'mainstation' and 'MS-2' branding. The device features a large screen, a volume knob, and several buttons. A long metal ruler is placed vertically to the left of the device for scale.                                                                                                                       |

| <p>EUT View 5</p> |  A black rectangular device, the mainstation MS-20, is shown from a front perspective. It features a large rectangular screen in the center. Below the screen, the brand name 'mainstation' is printed. To the right of the screen, there is a large rotary knob with a silver-colored ring, and several buttons including 'Test', 'TP', 'TWA', and a power button. A USB port is visible on the left side of the control area. The device is placed on a blue surface, and a metal ruler is positioned horizontally below it for scale. |
| <p>EUT View 6</p> |  A black rectangular device, the mainstation MS-20, is shown from a rear perspective. It features a large rectangular screen in the center. Below the screen, the brand name 'mainstation' is printed. To the left of the screen, there is a large rotary knob with a silver-colored ring, and several buttons including 'Test', 'TP', 'TWA', and a power button. A USB port is visible on the right side of the control area. The device is placed on a blue surface, and a metal ruler is positioned horizontally below it for scale. |
