# IV. Wearing Instruction

## 1.Wearing on the Right Ear

① Take out the headset from the charging case. As the picture shows, adjust the length of the ear hook according to your needs, slide the headset from above the ear to behind the ear, then gently press it toward the ear.
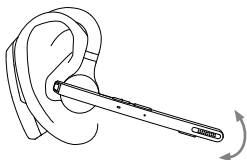

**NOTE**：

• Please take off your glasses before wearing the headset in order to achieve the most comfortable wearing condition.

• The adjustment range of ear hook length is 0-3.2mm. Do not use excessive force when adjusting the length of the ear hook.

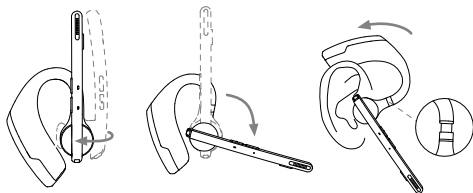

② Rotate the microphone boom to ensure the microphone

is towards your mouth.

**2. Adjustment of Wearing Style (Wearing on the Left Ear )**

① Rotate the microphone boom upwards and twist, make the earbud turn to another side, and then rotate the ear hook clockwise.
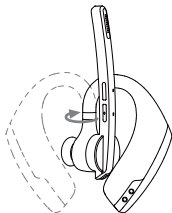

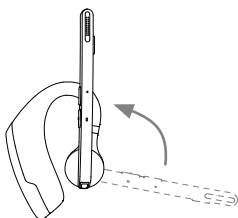

② Slide the headset from above the ear to behind the ear, then gently press it toward the ear. Rotate the microphone boom downwards to ensure the microphone is towards your mouth.
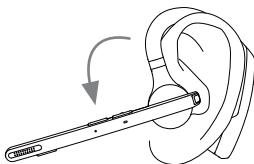

**NOTE**：

• The maximum rotation Angle of the microphone boom is 270°.

• The maximum rotation Angle of the ear hook is 180°.

# Ⅴ. Usage and Operation
## 1. Bluetooth Connection

① Take out the headset from the charging case or press and hold the multifunctional button for 3 seconds to turn on the headset. The headset emits the voice prompt of "pairing" immediately after it emits the voice prompt of "power on", indicating that the headset automatically enters the pairing mode. The headset indicator keeps flashing in red and blue alternately.

② Turn on Bluetooth function of cellphone (or other devices) , and then search for new devices.

For iPhone, "Settings" > "Bluetooth" > "Open"

For Android phones, "Setting" > "Bluetooth" > "Search new device"

**Note: The menu contents may vary from different devices**.

③ Find "M51" in the list of Bluetooth devices and click to

connect. If the connection is successful, the headset will emit the voice prompt of "connected" and the headset indicator will go out.

**NOTE:** When using the headset again, it automatically connects to the last two devices. If there is no paired device within 5 minutes, the headset will automatically turn off.

④ **Two Devices Connection**

This headset can connect to two devices at the same time.

After successfully connecting to phone A, turn off the Bluetooth function of phone A and headset. Next, restart the headset and connect to phone B. Keep phone B connected, turn on the Bluetooth function of phone A, find the "M51" in the list of Bluetooth devices and click to connect. ( **NOTE:** Although the headset can connect to two phones at the same time, only one of the phones can play music through M51, the headset cannot play music from two phones at the same time. )

## 2. Button Function Description

# VI. Product Specifications

1. Bluetooth version: V5.2

2. Bluetooth chip: QCC3040
3. Supported protocols: Headset, HFP, A2DP, AVRCP HSP
4. Speaker unit: Φ13mm
5. Transmission distance: 15m
6. Headset battery capacity: 115mAh
7. Charging case battery capacity: 500mAh
8. Standby time: 6 months
9. Music playback time: 15 hours
10. Headset charging time: 1.5 hours
11. Charging time of charging case: 1.5 hours
12. Charging port: Type-C
13. Working temperature: -5 ° C-50 ° C
14. Headset weight: 16.5g
15. Charging case weight: 64.1g

## VII. Common Problems

1. Low battery may cause disconnection, in order not to affect normal use, please charge the headset in time.

2. If the headset fails to turn on, please try to charge it up first, and turn it on when the battery is sufficient.

3. No sound can be heard from the headset when in a call.

—— Make sure you choose the M51 for audio input/output when in a call, but not the speaker on your cellphone.

—— Check whether your cellphone has been connected to other Bluetooth devices.

—— Make sure the distance between the headset and the cellphone does not exceed the effective distance of 15 meters.

4. The other end cannot hear your voice when in a call.

——Please keep the microphone hole of headset clean, so as not to affect the call and noise reduction effect, resulting in the other end can not hear your voice.

5. The headset cannot be charged.

——Please wipe the charging contact point of the headset and the charging case with alcohol.

## VIII. Safety Notes

1. Disassembling personally may damage the headset and this is not covered by warranty.

2. Please clean the headset with a clean, soft, and dry cloth.

3. Please do not use the headset in a dusty and humid environment.

4. Do not let your children play with the headset. They may be injured or damage the headset.

5. Do not place the headset in an extreme environment, otherwise, it may be temporarily unavailable for use. The normal use temperature is -5°C to 50°C.

## FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

‐ ‐ Reorient or relocate the receiving antenna.

‐ ‐ Increase the separation between the equipment and receiver.

‐ ‐ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

‐ ‐ Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

## ☺ **Happy?**

Thank you for choosing our products! We sincerely hope it will be your new-found happiness.

If you are fully satisfied with your using experience, could you please kindly share to your friends?
