Product information

Instructions

Turn on the headphones:
Press and hold the Power Button until the LED indicator flashes blue. Audio will say "Power on".

Turn off the headphones:
Press and hold the Power Button until the LED indicator flashes red. Audio will say "Power off".

Pairing:
1. Start with Elibom turned off.
2. Press and hold the power button until the LED indicator flashes red and blue alternately.

3. Open your device's Bluetooth settings and select "Elibom BC01".
Audio will say "Connected".

Wear

Pick up the headphones, bring them behind the back of the base of your neck, position the earhooks on your ears, then enjoy your music!

Wearing your headphones the wrong way could cause discomfort. The transducers should rest in front of your ears.

Standby	Up to 10 days	Bluetooth operating frequency range	2402MHz-2480MHz
Weight	25.0g	Water resistance	IP68
Charging voltage	5V±5%	Battery capacity	240mAh
Microphone impedance	8Ω±10%±20%	Maximum off output power	4.0mW

Charging tips

When the headphones are at low battery, there will be a "battery low" prompt and the red light will flash intermittently. Use the corresponding cable for charging.

The LED indicator will turn red during the charging process and the headphones will automatically turn off. The LED indicator will turn from red to blue when charging is complete.

Finished charging

Storage and Maintenance

- Store the headphones in a cool, dry place. The working temperature should be 0-45°C (32-103°F). Working in a cold/hot temperature, tightly hold ears, or use an earpad to prevent injury and reduce the battery life.
- Keep the product away from heat sources, direct sunlight, combustible gas or other liquids.
- Wearing the charging port dry before connecting to the charger will reduce the risk of damage.
- These headphones are water-resistant, but are not waterproof. Please do not submerge the headphones in water.
- Clean the headphones with a soft dry cloth.
- Do not charge right after sweating, or use them's sweat inside the charging port, which could lead to circuit burning while charging.
- After storage for a long period, please charge the headphones before using again.

Packing list

If any part of your product is damaged or missing, do not use it. Contact authorized Elibom dealer or Elibom customer service.

FCC:

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
