Storage and Maintenance

Store the headphones in a cool, dry place. The working temperature should be 0-45°C (32-113°F). Working in a cold/hot temperature, highly humid area, or low air pressure environment may reduce the battery life.

Keep the product away from heat sources, direct sunlight, combustible gas or other liquids.

Keeping the charging port dry before connecting to the charger will reduce the risk of damage.

These headphones are water-resistant, but are not waterproof. Please do not submerge the headphones in water.

Clean the headphones with a soft dry cloth.

Do not charge right after exercising, in case there's sweat inside the charging port, which could lead to circuit burning while charging.

After storage for a long period, please charge the headphones before using again.

Note:

Design and specification are subject to change without notice.

保管とメンテナンス

- イヤホンは乾くて涼しい場所に保管してください。動作温度は0~45℃(32~113°F)とし、この温度を超える低温、高温、多湿の場所、または極端に低い気圧の場所での使用はバッテリーや製品の寿命を短くする原因となります。
- 製品は、熱源、日差し、可燃性ガス、およびその他の液体から遠ざけてください。
- 充電器に接続する前に、充電ポートを乾いた状態にしておくと、破損のリスクを減らすことができます。
- このイヤホンは耐水性がありますが、防水ではありません。イヤホンを水の中に置かないでください。
- イヤホンは柔らかくて乾いた布で拭き、常に清潔を保ってください。
- 運動をした後、すぐに充電しないでください。念のため、充電ポート内に汗などの水分が残っていると、充電中に回路が焼け故障の原因となります。
- 長期間保管した後は、再び使用する前にイヤホンを充電してください。

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
