

Federal Communications Commission Authorization and Evaluation Division

Date: 12/12/2022

FCC ID: 2A733-STOMP-2

We will be using E-label for this product. Instructions to access the label can be find in the printed Quick Start Guide (User Manual) as a physical document which is supplied with the product.

The label can also be accessed by viewing the website

www.strengthbynumbers.com/pages/regulatory.

No codes or log in requirements are needed to access the regulatory information via the link.

A link to this website is included in the About page of the app. While in the app, to access this link, the user clicks the Settings icon, the About tab and then the link to the website with regulatory information will appear. When a user is in the app, there is no additional log ins required to access the Settings or About page. The information on the website is secure and in a readable form. We will put the FCC ID on the shipping documents that are attached to the outside of the box when they are shipped to the customers.

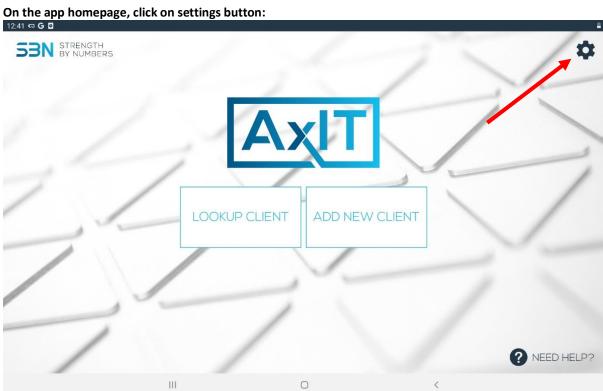

This device complies with Part 15 of the FCC Rules Operation is subject to the following two conditions:

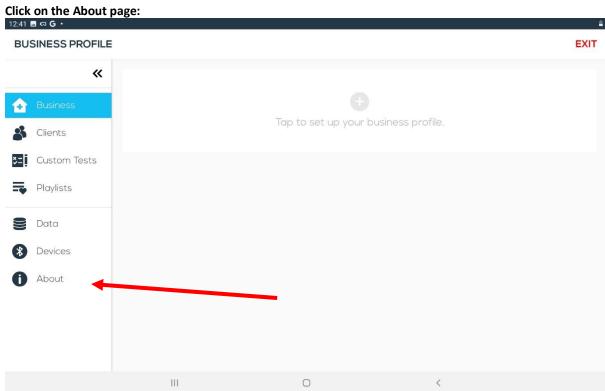

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Sincerely,

Jordan Thurgood

Regulatory information in the App (The app is required to operate the devices).

On the About page a link will be located that goes to the website containing the following regulatory information:

REGULATORY INFORMATION

STOMP-2

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- —Reorient or relocate the receiving antenna.
- —Increase the separation between the equipment and receiver.
- —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- —Consult the dealer or an experienced radio/TV technician for help.
