  Tap once (L/R)  

Reject → Long-press (L/R) 2 sec → 

Hang Up → Double-tap (L/R) → 

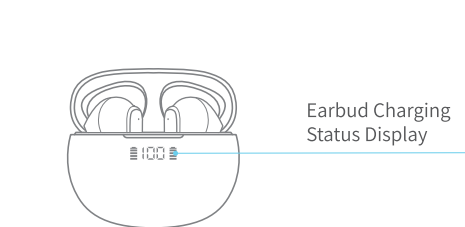

Activate Siri or other voice assistants.

  Triple-tap (L/R)  

CHARGING

Charging the Earbuds

Put the earbuds into the charging case and close the case, they will power off & be charged automatically.

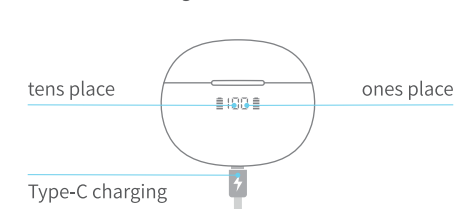

The earbud charging status display has 4 grids lights.
If the earbud is in charging state, flashes from 1st to 4th grid light repeatedly.
If the earbud is fully charged, 4 grids lights will turn on.

CHARGING

Charging the Charging Case

► **Method 1 : Wired Charging**
Please use 5V/1A adaptor to charge the charging case which can be charged with a computer USB OR other USB interface charger.

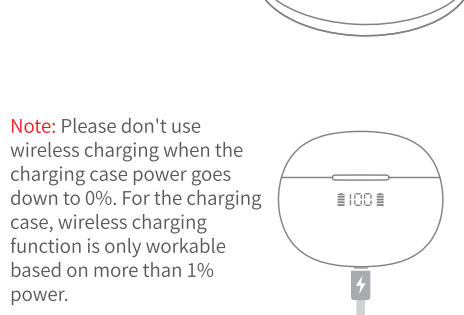

When the case is charging, the ones place of the digital power display flashes and tens place keeps on. Once the case is fully charged, the ones place keeps on together with the tens place, if we disconnect the external power supply of the case, the power display will go off after 10seconds.

CHARGING

►Method 2 : Wireless Charging

If the charging case doesn't start to charge, please try to reposition it. (Wireless Charging Pad Not Included)

SPECIFICATION

Earbud (Each)

1. Model Name: T69
2. Bluetooth Version: V5.3
3. Transmission Distance: 10m/33ft (without obstacles)
4. Supports: HSP/HFP/AVRCP/A2DP
5. Battery Capacity: 40 mAh
6. Music Playback Time: 7H(varies from volume level and song types)
7. Charging Time: 1.1H
8. Standby Time: 300H
9. Weight: approx 4g
10. Size: 35.25*18.40*10.43 mm

Charging Case

1. Battery Capacity: 400 mAh
2. Charging Time: 2H
3. Charging Port: Type-C
4. Weight: approx 38g
5. Size: 63.89*28.81*52.45 mm

PRODUCT MAINTANCE

- Never dismantle or refit the product to avoid malfunction or fire hazards.
- Keep away from corrosive liquids to avoid damage to the product.
- Keep away from extreme ambient temperatures below -10°C or above 60°C.
- Keep away from children and pets.
- Never touch the earphone with sharp objects, otherwise it will easily cause scratches.
- Don't use the product in thunderstorm weather to avoid malfunction or electric shock.
- If it has not been used for more than 1 week, please charge and maintain it in time to ensure that it is safe.

8. If the charging case is excessively discharged, the led display won't show immediately during charging. Please keep waiting for 15 minutes, the led display will show later.

9. After using a period time, the earbuds don't charge or even can't turn on, you can handle this problem by using an alcohol rag to clean charging contacts and charging pins.

10. If there is no sound from one earbud, you need to check if the phone & earbud volume is too low. If the phone & earbuds volume is normal, you need to reset the earbuds.

11. Please use the original charging cable provided by the earphone manufacturer for charging or choosing a Type-C cable.

Any questions, please feel free to contact us for assistance. Thanks.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
