Troubleshooting Guide

Fault Description	Troubleshooting Measures
Side covers not installed (left or right)	Check if the side cover is properly installed and securely in place. Ensure there are no foreign objects blocking the installation.
Waste bin not installed	Check if the waste bin is pushed into position. Ensure there are no foreign objects inside that could obstruct it.
Litter tray not installed	Check if the litter tray is pushed into position. Ensure there are no foreign objects blocking the interior.
Roller not installed	Check if the roller is properly installed. Ensure the rollers and gears are aligned and free from any foreign objects.
Litter refilling failure	Check if the litter bin is properly installed. Ensure there are no foreign objects blocking the installation slots, and check if the screw mechanism is obstructed by any objects inside the litter bin.
Lid not opened	Check if there are any foreign objects obstructing the lid.
Insufficient litter	Check if there is enough litter in the litter bin and ensure it is properly installed.
Packaging failure	Check if the waste bag is too full, and verify if there are any obstructions in the sealing area.
Missing waste bag	Please place or replace the trash bag.
Pet nearby, pet entering	A pet is entered or nearby the entrance.
Waste bin full	The waste bin is full. Please pack and remove the waste bag.
Waste bag not removed	The waste has been packed. Please remove the waste bag.

Environmental Compliance List

Names and contents of harmful substances in the product

Component	Harmful Substance					
	Lead (pb)	Mercury (Hg)	Tin (Cd)	Hexavalent Chromium (Cr(VI))	Polybrominated Biphenyls (PBB)	Polybrominated Diphenyl Ethers (PBDE)
Printed Circuit Board Module	○	○	○	○	○	○
Plastic	○	○	○	○	○	○
Metal	○	○	○	○	○	○
Accessories	○	○	○	○	○	○

This table is prepared in accordance with the SJ/T11364 standard.

○ : Indicates that the content of the harmful substance in all homogeneous materials of this component is below the limit specified in GB/T26572.

✗ : Indicates that the content of the harmful substance in at least one homogeneous material of this component exceeds the limit specified in GB/T26572.

Notes:

1. The number in this symbol represents the environmental use period of the product under the usage conditions specified in the manual.
2. The harmful substances such as Lead (Pb), Mercury (Hg), Cadmium (Cd), and Hexavalent Chromium (Cr(VI)) refer to the metals and their compounds.

Product Specifications

Product Name	PETSUPER Automatic Smart Cat Litter Box	Product Model	PLT01
Operating Voltage	12V DC	Rated Power	48W
Product Dimensions	690*535*585mm	Product Weight	14kg
Capacity of Litter Bin	4.5L	Roller Capacity	68L
Capacity of Litter Tray	10L	Material	ABS
Operating Environment	5°C-35°C	Applicable Pet	Cats over 6 months or 1.5kg

I App Usage Guide

1 Connect to the APP

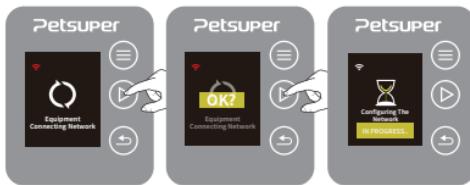

Download the PETSUPER app from the App Store or Android Market.

Go to the "Home" page of the app and tap the "+" icon to add the device. Follow the prompts to add the device to your account.

Icon	Status	Description
	White	The device is successfully connected to the network.
	Red	The device is not connected or the network is offline.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
