04

Connecting

Charge your devices.

iPhone Charging Mode Settings

05

Flat mode

Place the device flat on the wireless charging device. If your phone does not have magnetic function, this mode is very suitable for you! Because this mode compatible with some devices without magnetic(device must be centered on the charging pad).

06

1.Lift the charging pad up from back side.
Attention: Don't lift it up from front side.

2.Pull the charging pad up, your phone can use angle and rotation Mode.

07

Angle and Rotation Mode

In this mode, you can adjust the angle of the phone at will, and even rotate it. Advice: We strongly recommend you use this mode to charge your phone! Because in this mode charging is very faster as it is more beneficial for cooling. In addition, it's very easier to place and remove your device.

Apple Watch Charging Mode Settings

08

Watch Flat mode

Place your watch flat on the wireless charging device.

Use your fingers to stand up the iwatch charger at the bottom of the charger.

Nightstand Mode.

Turn on the nightstand mode of Apple Watch.

Attention

08

1. Do not place any other items such as credit cards, door keys, coins, metal, NFC cards, etc. between your smart-phone and the wireless charger.

2. Make sure to place the device in the center of the charging pad. Improper placement may cause heating or no charging.

3. Only compatible with magnetic phones.

4. Please use magnetic case, or no case. If you don't use magnetic phone case, the phone will become difficult to charge and unstable.

iphone with magnetic Non magnetic iphone Magnetic Case Non Magnetic Case

Warm reminder:

The charging speed is related to the environment temperature.

For fast charging, please place the wireless charger in a cool and ventilated place. For example, a cool room, or somewhere near a fan or air conditioner. Do not expose it to direct sunlight; please don't place it near hot objects. Such as electrical appliances, heating, fireplaces, etc.

FCC Statement

09

This device complies with part 15 of the FCC Rules.Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received,including interference that may cause undesired operation.

FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different fromthat to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
