Instructions

Add Sub-device
The sub-device can be added after the gateway is successfully added.
Please refer to the instructions on the APP to add the sub-device.

Rest network
Press and hold the gateway button for more than 5 seconds to reset the device. After the initialization of the device is completed, the device will on distribution network state again, and repeat the steps of [Add Device]

Note:
1.Please ensure that your phone is connected to the 2.4GHz Wi-Fi network before adding a gateway.

2.In order to make the connection more smooth, please try to keep the phone close to the gateway and ensure that the phone and the gateway are in the same Wi-Fi network.

3.If the device fails to be added or is not in the distribution network state after power on, please press and hold the gateway button for more than 5 seconds to reset the device and add it again.

Product Specifications

| Product Name	Smart Bluetooth Gateway Pro
Product Model	THP10-B-V2
Power Input	5 V ⎓ 1 A	General 5V Direct Current 1A, symbol ⎓ means direct current
Working Temperature	-10℃ — +40℃
Working Humidity	10% to 90% RH (non-condensing)
Internet Port	10/100Mbps Ethernet
Wireless Protocol	WiFi、Bluetooth
Product Size	90.0 mm x 90.0 mm x 23.0 mm
Net Weight	About 74.5 g
Frequency band of radio equipment operation	2400MHZ-2483.5MHZ
Maximum output power	WiFi: ≤19dBm（EIRP）; Bluetooth: ≤19dBm（EIRP）

Packing List

- Smart Bluetooth Gateway Pro x 1
- Net cable x 1
- Power cable x 1
- Instruction manual x 1

Smart Bluetooth Gateway Pro
