

Orca Display 2 O-0202

Quick Start Guide Powered by Android™

Quick Start Guide

Preface

Dear users:

Thank you for purchasing the product. We provide you with the Quick Start Guide in order to use the product more easily. Please read it carefully.

The Quick Start Guide is applicable to this Android device. The guide introduced the basic functions and normal functions of Android system. Any difference, please refer the reality as standard.

Welcome to contact us if you have any inquires for the guide or product when you use it.

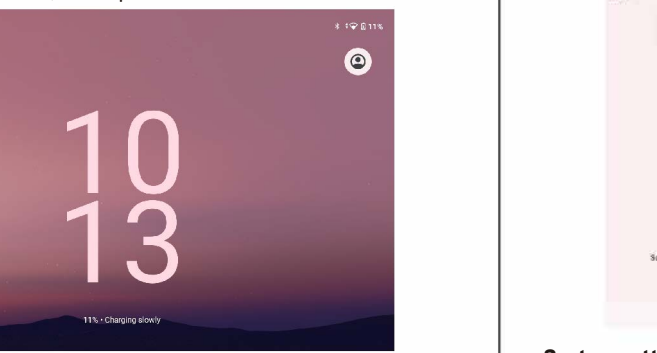

A1

Quick Start Guide

Desktop Initialization and Application

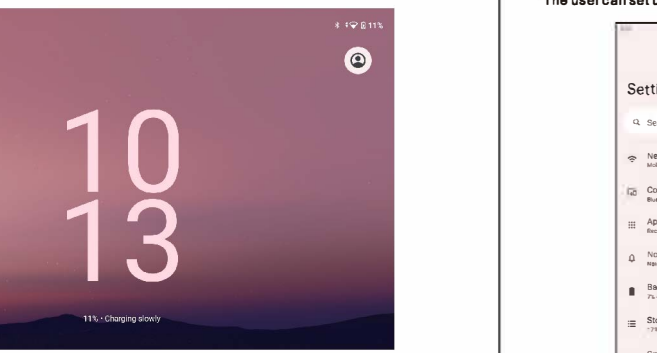

1.Initial page

Lock screen interface,slide up to unlock, as below picture.

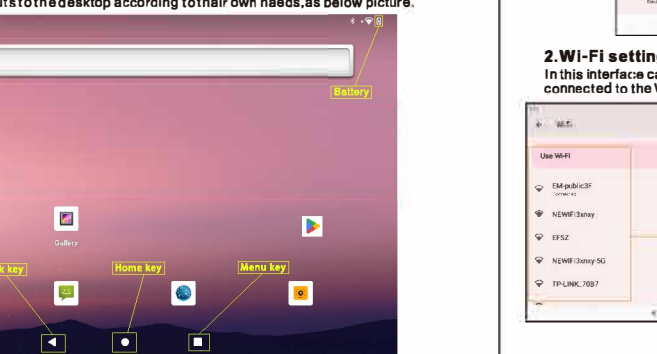

2.Initial desktop

Slide the arrow up and go to the desktop, as below picture.

3.Menu bar layout

(1) Desktop menu Introduction:This interface can start the application in a quick way,after the menu operation,users can add short cuts to the desktop according to their own needs,as below picture.

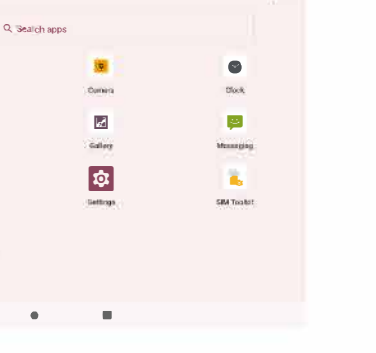

A2

Quick Start Guide

Desktop Initialization and Application

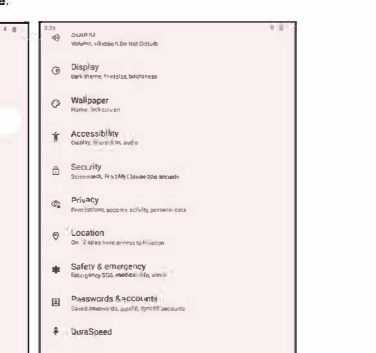

(2) Menu bar layout

All the application and user installation applications are here, and all applications can be opened, as below picture.

System setting

The user can set up the system on this interface.

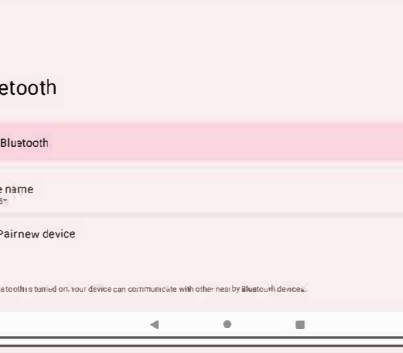

A3

Quick Start Guide

3.Bluetooth setting

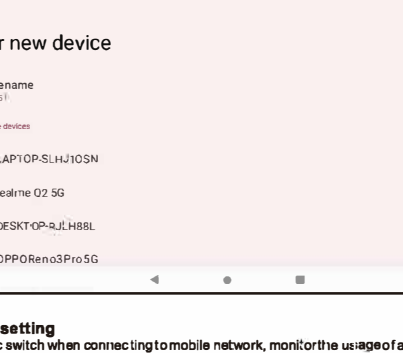

Search this interface for Bluetooth pairing,remove or cancel paired Bluetooth devices,as the below picture.

Pair new device

Available devices

- LAPTOP-SLHJ10SN
- realme Q2 5G
- DESKTOP-4JLH8BL
- OPPO Reno3 Pro 5G

4.Data traffic setting

Set up data traffic switch when connecting to mobile network, monitor the usage of application traffic.

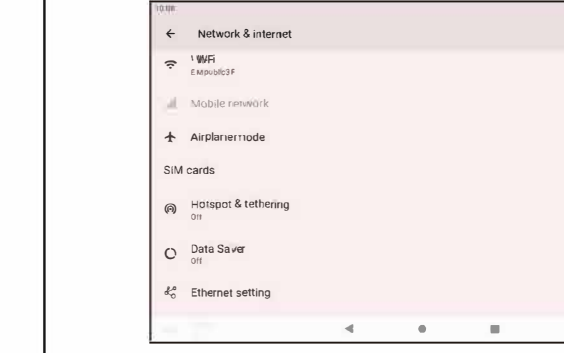

A4

Quick Start Guide

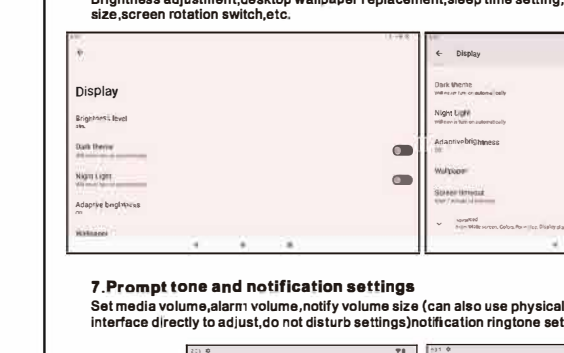

5.More setting

Turn on or off flight mode, switch on NFC, set network sharing with convenient hot spot, VPN settings, manually or automatically search mobile network, Ethernet configuration.

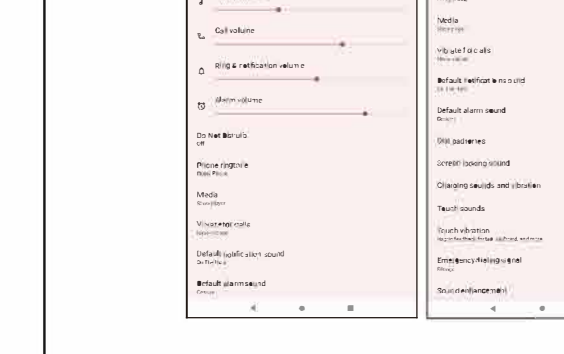

6.Display setting

Brightness adjustment,desktop wallpaper replacement,sleep time setting,interactive screen saver,font size,screen rotation switch,etc.

7.Prompt tone and notification settings

Set media volume,alarm volume,notify volume size (can also use physical keys to the corresponding interface directly to adjust,do not disturb settings,notification ringtone settings and other operations.

A5

Quick Start Guide

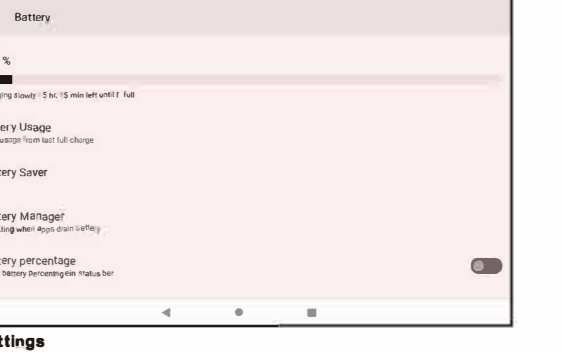

8.Storage setting

View system memory usage, install and uninstal SD cards.

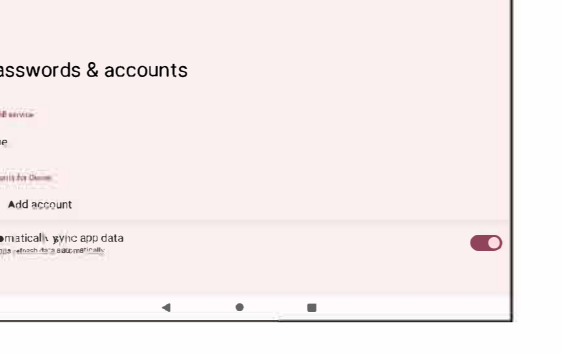

9.Battery settings

Check battery usage.

10.User settings

Users can add or delete accounts.

A6

Quick Start Guide

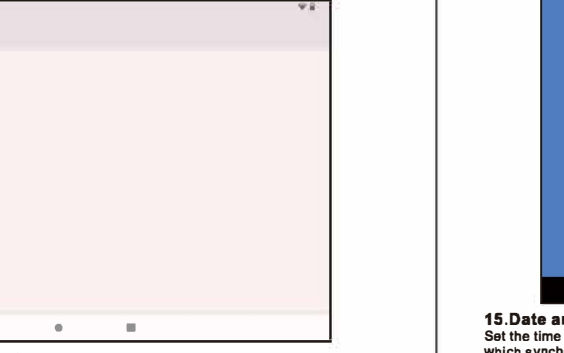

11.Location information

Turn on or off the GPS,or restrict an application to use to obtain location information.

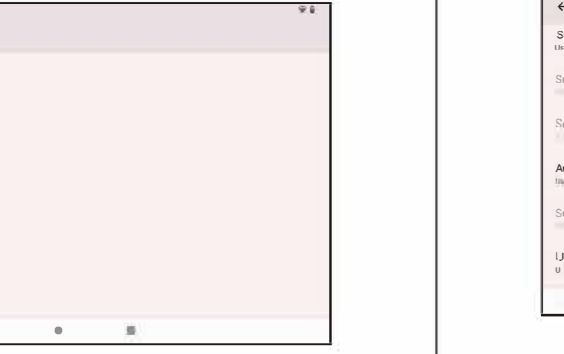

12.Security settings

Set screen locking mode with some encryption settings,can manage unknown sources of application installation settings,etc.

13.Language and input method settings

Set display language and input method,text to voice,mouse/touch panel(pointer speed)etc.

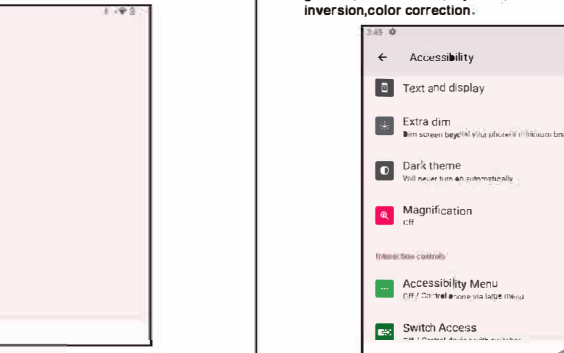

A7

Quick Start Guide

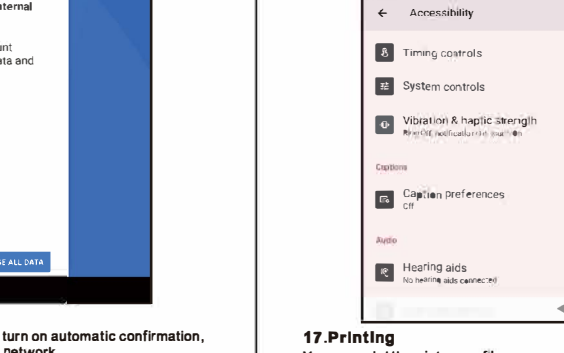

14.Backup and reset settings

Do data backup and restore factory settings,restore factory settings will clear all content,please be careful.

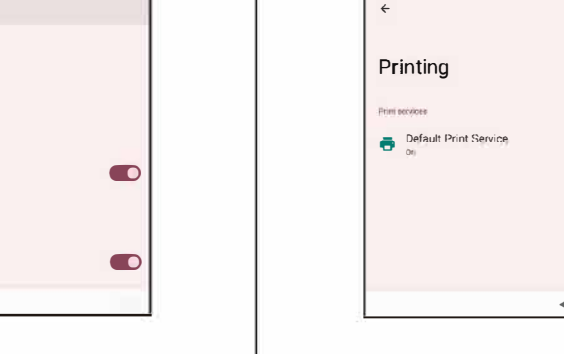

15.Date and time settings

Set the time and time zone and time format for 24 hours or 12 hours,or turn on automatic confirmation, which synchronizes automatically when the device is connected to the network.

17.Printing

You can print the picture or file.

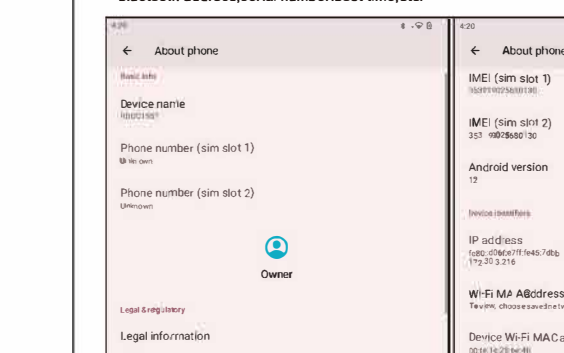

A8

Quick Start Guide

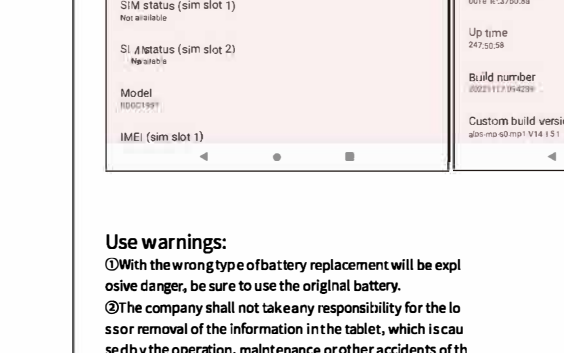

16.Accessibility

Click with accessibility,for quick settings of personal operation habits,such as:Caption,magnification,gesture,front size,display size,power button ends call,auto-rotate screen,speak password,color inversion,color correction.

18.Status Information

View battery status,battery power SIM card status/IMEI information/IP address/WLAN MAC address, bluetooth address,serial number,boot time,etc.

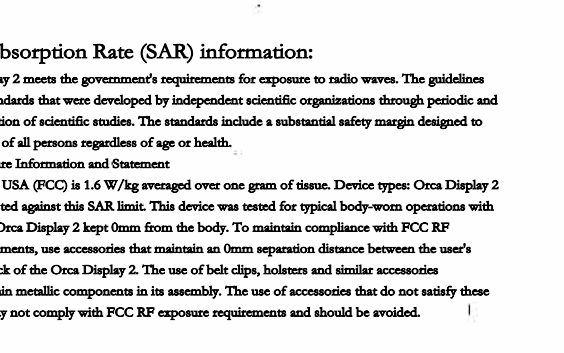

A9

Quick Start Guide

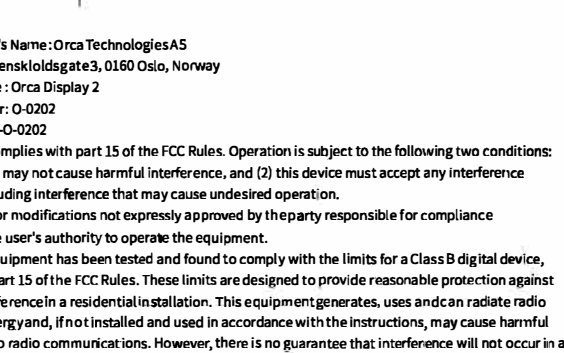

17.Printing

You can print the picture or file.

18.Status Information

View battery status,battery power SIM card status/IMEI information/IP address/WLAN MAC address, bluetooth address,serial number,boot time,etc.

Specific Absorption Rate (SAR) information:

This Orca Display 2 meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device type: Orca Display 2 has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the Orca Display 2 kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of the Orca Display 2. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements and should be avoided.

Manufacturer's Name:Orca Technologies AS
Address: Tordenskioldsgate 3, 0160 Oslo, Norway
Product name: Orca Display 2
Model number: O-0202
FCC ID: 2AT99-O-0202

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Use warnings:

- ①With the wrong type of battery replacement will be explosive danger, be sure to use the original battery.
- ②The company shall not take any responsibility for the loss or removal of the information in the tablet, which is caused by the operation, maintenance or other accidents of the non-normal operation of the software and hardware.
- ③Please backup your important information at any time.
- ④Please do not disassemble the tablet; otherwise it will lose the right to guarantee.
- ⑤Adapter description:
Manufacturer's Name: Orca Technologies AS
Address: Tordenskioldsgate 3, 0160 Oslo, Norway
Product name: Orca Display 2
Model number: O-0202
Operating Temperature: - 20° C to 60° C

This device was tested for typical body - worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third - party belt - clips, holsters, and similar accessories used by this device should not contain any metallic components. Body - worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
