Getting Started

1. Plug the adapter into a standard household outlet, you will see 88:88 on the display and the machine is ready to be set.
2. Pull out the insulator sheet before use. Backup battery is to preserve the time and alarm settings in case of power outage.

NOTICE:

1. If the display is "blank" after plugging in, please check whether the "Display Dimmer" on the back is at a high position.
2. It is NOT a battery-powered alarm clock. The battery just preserves time and alarm settings in case of power outage. The screen will go blank if only use battery. Please keep plugged in.

Sound Selection

1. Press the "♪" button to switch on/off the sound mode.
2. Press the "◀" or "▶" button to switch among all of 20 sounds.

List of Track

Nature Sounds

Alarm Pause / Snooze

When the alarm goes off, you have two options:

1. Press any button except SNOOZE button to stop the alarm when it's ringing. Alarm will go off next day.
2. Press SNOOZE button to snooze. "⌚" icon will blink on the display. The alarm will go off again 9 mins later. If you want to cancel snooze, press "⌚", and the alarm 1 will not go off today.

Night Light Setting

1. Press the "💡" button to turn on/off the night light.
2. Press the "SNOOZE LIGHT COLOR" button to select which color of the night light you like.

Dimmer Control of Screen Display&Night Light

The "Display Dimmer" dial and the "Light Dimmer" dial are at the back of the machine, and the adjustable brightness range is from 0 to 100%.

Sleep Timer Setting

1. When the machine is on, press the "💤" button repeatedly to select a sleep timer ranging from 1H, 2H, 3H, 4H, OFF. The led light of the selected timer will light on accordingly. If no operation is performed within 5S, the machine will return to the time display and start the timer automatically.
2. Press the "💤" button to select the timing duration as OFF to turn off the timer.
3. When in sleep timer mode, press the "💤" key to check the remaining time. Press the "💤" key again to reset the timer.

NOTE:

When the music is playing, the volume of the music gradually decreases until it turns off 1 minute before the off time; when the light is on, the brightness of the light gradually decreases until it turns off 1 minute before the off time.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
