1. Long press the “

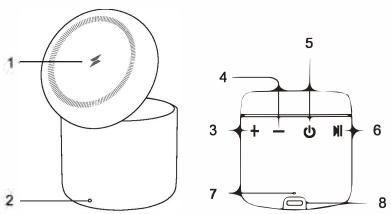

Note: The Bluetooth speaker has a built-in 1100mAh Li-ion battery, fully charges in 1-2 hours, and lasts 6-8 hours.

Wireless Charging

A Side

At A Glance

1. Magnetic Wireless Charging Pad	6. Play/Pause
2. Bluetooth Indicator Light	7. Charging Indicator Light
3. Volume +	8. Type-C Charging Port
4. Volume -	
5. Power/Bluetooth Control	

B Side

Notes

1. Fully charge the speaker before first use.
2. Connect to power when charging a phone; the battery is only for Bluetooth audio.
3. The wireless charger is compatible with iPhone 12-16 series and supports phones with magnetic cases ≤3mm (no metal parts).
4. The red indicator blinks if metal is detected or if placement is incorrect during charging; it turns off when resolved.
5. Does not support Bluetooth hands-free calls; notifications won't play through the speaker.
6. Bluetooth functionality remains unaffected during charging.

Support

We provide a one-year warranty. If you have any issue with this device, please contact us at customer01@kerchanstar.com, we will address your issue within 24 hours.

B Side

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement (The description is for wireless charging functions only)

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.
