

Modular Approval Request FCC

FCC ID: 2A7G3XS5G0304

| Requirements | EUT |
|---|---|
| 1. The modular transmitter must have its own RF shielding. | The modular has a shielding Case. |
| 2. The modular transmitter must have buffered modulation/data inputs | The module has modulation/data inputs |
| 3. The modular transmitter must have its own power supply regulation. | The module has its own power supply regulation. |
| 4. The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(b)(c). The antenna must either be permanently attached or employ a "unique" antenna coupler (at all connections between the module and the antenna, including the cable). | No applicable to licensed modules |
| 5. The modular transmitter must be tested in a stand-alone configuration | This modular is tested under stand-alone configuration. Please refer to Test setup photo. |
| 6. The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number | The modular transmitter is labeled with its own FCC ID number. Please refer to label sample and label location. |
| 7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization. | The modular complies with this requirement. Please refer to user manual. |
| 8. The modular transmitter must comply with any applicable RF exposure requirements. | The device complies with this requirement. Please refer to RF exposure report. |
