- 1 * User Manual

FQA

1. Does it support wireless carplay and watch YouTube/Netflix/Tiktok videos at the same time?

Can not support wireless carplay and watch the videos at the same time

2. When i want to watch the Videos, do i need to manually connect to the WIFI hotspot every time?

Yes, you need to manually connect to the WIFI hotspot every time

3. what to do when operation is slow

Please click the Speed icon clear cache and go to setting system try reset related option

4. Audio input or output issues : calls rejected or forwarded to voicemail / no play sound / microphone not working / music playback interrupted or paused / voice functioning abnormally...

When on a call, check that your Audio output option is Carplay

5. The indicator blue light of the adapter is still on after the car is turned off ?

Because the car does not cut off all power immediately when it is turned off, the adapter's light will not go out immediately, but it will take a while. Please rest assured that its power consumption is minimal and will not drain the car battery

6. When use the wireless carplay adapter whether iphone can use other internet wifi

When enjoying the wireless carplay adapter function, the iPhone' s WiFi will be occupied by the adapter. So you can not use other internet at the same time. You only can use your iPhone SIM card internet.

7. Unable to automatically reconnect wireless carplay

- 1) The wireless carplay Adapter will automatically reconnect to your iPhone when you use it again
- 2) Clear the pairing record , restart the iPhone and repair the adapter

8. Can the adapter be paired with multiple iPhones

The adapter can be paired with Maximum five iPhones, but only one device can be connected at a time. If you want to pair it with a new iPhone, please cancel the current connection first. Please note that by default, the adapter's system will only automatically connect back to the last used iPhone

9. How to make online update firmware

- 1) Power up the adapter
- 2) Open your iPhone personal Hotspot or other WIFI support devices

3)Click Video Icon and enter the setting page connected your iPhone personal hotspot or other WIFI

4)Enter the setting page of system then click “System Updates”you can update the newest firmware

Note:If the adapter works properly, it means the current version is suitable for your car. It is not recommended to update the firmware
