1. Switch instruction

1.1 Press the ON button to turn on the light.

1.2 Press the OFF button to turn off the light, and again to power off.

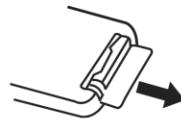

2. Bluetooth function

2.1 Enable Bluetooth on your mobile device (phone, computer, etc.) and search for the device "XKL-Q9".

2.2 Click manually to pair the device, and it will connect automatically with a successful "Ding Dong" sound.

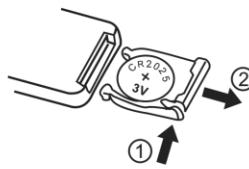

2.3 When playing music, if you want to pause the music, press the key on the remote control. When pausing the music, press the key again to play the music. Press the key for a long time to increase the volume, press the key for a long time to reduce the volume, click the key to switch to the previous music, and click the key to switch to the next music.

3. Before using the remote control

For first-time use, remove the insulation sheet from the back of the remote control.

4. Battery replacement

The battery has been installed in the remote control unit when shipped from the factory. To replace the battery, pull out the battery tray from the rear, put the lithium-ion battery (CR2025) in with the + side facing up, and insert the tray again.

Technical parameter

Speaker output :52mm(4ohm,THD < 1%)

Speaker :5W*1

Version :V5.4

Battery/voltaic capacity: 2200mAh /3.7V

Battery charging time: approx. 2 hours

Working time :2-4 hours

USB power input :5V 2A

Leistung: MAX 10W

Lichtquellentyp: LED RGBWY

Package contents

What's in the box ?

1X Music projection lamp

1X Remote control unit

1X USB Charging cable

1X User Manual

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
