说明书

TWS无线立体声耳机

产品图示：

产品规格

- 型号： S 10
- 无线版本：V5.0+EDR
- 蓝牙频率：2.4GHz
- 蓝牙传输距离：15米
- 工作环境：-10-50°C
- 待机时间：120小时
- 支持协议：A2DP1.3/HFQ1.6/HSP1.2/AVRCP1.6/D11.3

功能说明：

- 右耳长触摸是音量+
- 左耳长触摸是音量-
- 右耳双触摸唤醒Siri 功能
- 左耳双触摸唤醒Siri功能
- 右耳三触摸下一曲
- 左耳三触摸上一曲

常见问题与解答

1. 蓝牙配对不成功怎么办？

由于蓝牙连接的特殊性，偶尔会出现配对不成功的现象，这时候需要先在蓝牙设置里忽略连接过的蓝牙名，然后关闭蓝牙。并将耳机放入充电仓10秒，再将耳机从充电仓一起拿出来，等待5-10秒双耳组队成功。

2. 耳机没声音怎么办？

耳机连上手机之后先检查一下手机的音量大小。安卓手机音量最大值由手机默认音量为准；还可以检查一下是否不小心碰到了耳机的触摸区域导致音乐暂停而出现耳机没声音。

3. 偶尔出现卡顿/延迟怎么办？

由于耳机通过蓝牙连接，偶尔出现卡顿或者断线的情况，请重新连接即可。在运行大型软件、浏览国外网站、或其他占用大内存的软件时，都会增加蓝牙的加载负荷，非耳机自身质量问题。

4. 耳机出现轻微电流声怎么办？

耳机和音响都会存在轻微的电流感，主要原因是受周围磁场和硬件设计影响。以正常播歌曲不受影响为标准，如果音乐播放的同时还能听到电流声属于不正常，可以先检测周围是否有磁场干扰，再判断耳机是否有硬件问题。

注意事项：

1. 请勿暴力对待本产品，也不要重物挤压，远离高温高湿环境。

2. 远离wifi及路由器及其他高频发射设备，这样会影响本机的信号接收，造成声音的卡断及断连。

3. 请在有效环境（15米）中使用本产品，并且蓝牙设备与耳机之间不要有实体阻挡（例如墙等）

4. 当充电仓盖掀开再关上后充电盒灯不亮，这是充电仓无电状态显示，此时双耳自动开机无效，需手动触摸开机。

5. 注意在佩戴蓝牙耳机时手应该握住蓝牙耳机的手握区域，避免误触碰到耳机的捏感区域导致音乐暂停。（手握区域与触摸区域参考前面的产品图示）

注：本产品可以与任何一款具有蓝牙功能的设备进行连接使用。

TWS wireless stereo headset

Product icon:

Specifications:

- Model: S10
- Wireless version: V5.0+EDR
- Bluetooth frequency: 2.4GHz
- Bluetooth transmission distance: 15 meters
- Working environment: -10-50°C
- Standby time: 120 hours
- Support agreement: A2DP1.3/HFQ1.6/HSP1.2/AVRCP1.6/D11.3

Function Description:

- Right ear long touch is volume +
- The long touch of the left ear is the volume-
- Right ear double touch to wake Siri function
- Left ear double touch to wake up siri function
- Touch the next song three times with your right ear
- Three touches on the left ear

Frequently Asked Questions and Answers

1. What should I do if the Bluetooth pairing is unsuccessful?

Due to the particularity of the Bluetooth connection, there will occasionally be unsuccessful pairing. At this time, you need to ignore the connected name in the Bluetooth settings, and then turn off the Bluetooth. Put the earphones in the charging compartment for 10 seconds, then take the earphones out of the charging compartment together, and wait for 5-10 seconds for the binaural team to succeed.

2. What should I do if there is no sound from the headset?

Check the volume of the phone after connecting the headset to the phone. The maximum volume of the Android phone is subject to the default volume of the phone; you can also check if you accidentally touch the touch area of the headset, causing the music to pause and no sound from the headset.

3. What should I do if there is occasional freeze/delay?

As the headset is connected via Bluetooth, occasionally there will be a freeze or disconnection, please reconnect it. When running large software, browsing foreign websites, or other software that takes up a large amount of memory, it will increase the loading load of Bluetooth, which is not a quality problem of the headset itself.

4. What should I do if the earphone has a slight electric current?

Headphones and speakers will have a slight current sound, mainly due to the surrounding magnetic field and hardware design. Regarding the standard that the normal song is not affected, if the current sound can be heard while the music is playing, it is abnormal. You can first detect whether there is magnetic field interference around, and then determine whether the headset has a hardware problem.

Precautions:

1. Do not treat this product violently, or squeeze it with heavy objects, and stay away from high temperature and high humidity environments.

2. Keep away from wifi, routers and other high-frequency transmitting equipment, which will affect the signal reception of this machine, and cause sound jam and disconnection.

3. Please use this product in an effective environment (15 meters), and there should be no physical obstruction (such as walls, etc.) between the Bluetooth device and the headset

4. When the charging compartment cover is opened and closed, the charging box light does not turn on. This is the status display of the charging compartment without electricity. At this time, the automatic power on of both ears is invalid, and manual touch is required to start.

5. Note that when wearing the Bluetooth headset, your hand should hold the grip area of the Bluetooth headset to avoid accidentally touching the pinch area of the headset and causing the music to pause. (Refer to the previous product illustration for the grip area and touch area)

Note: This product can be connected to any device with Bluetooth function.

#### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
