

Product Instructions

製品の使用説明書

The motion sensing game watch has sensors that can measure temperature and the number of running steps. The results of measurement are for reference only; this function cannot be used as precision measurement for medical equipment or professional industry. The watch number value transmitted to the mobile app should only be used as results with reasonable accuracy.

Thank you for purchasing the watch-type motion sensing
game console of Ten-Meter H00800

Enter the "Ten-Meter HOOROO" interface where the app wants to use your bluetooth to connect to Hooroo watch, click "OK", and enter "You need to connect HOOROO Watch to play motion sensing game interface - select 'Connect to watch'". Enter "You haven't bound the watch yet" interface, click "Scan the code to connect", then jump to Hooroo watch wants to access your camera" interface - select "OK" scan the QR code on the watch screen and bind the watch, please

Use the installation wizard to scan the "Ideas" file. QR code or manual, click to "App downloaded, leave WeChat to open the App", enter the Medic Trac interface, and click "Downloaded" and "Open". You want to use bluetooth, your permission to access bluetooth is asked - choose "OK", go to "User Agreement" and "Privacy Statement" select "Agree".

Read the screen carefully and agree to log in - select "Agree". Enter the mobile phone number interface and input it - enter the verification code in the SMS - enter the map interface - select "Allow when using the app". Click Connection Data - Open All - click Allow.

- Click "Social Contact" - you can see other users' exercise time, compare kcal, average heart rate, etc.
- Click "Healthy" - "Wear Device to Bed", "Track Your Exercise", "Time Get Moving", "Women's health", "SpO2", etc.
- Click "Me" - "My Device" "Report", "Leaderboard", more content - "Activity" "Exercise" "Sleep" "Data sharing" "Account settings" "Help"

The screenshot shows the Instagram app interface. At the top, there's a navigation bar with icons for home, search, post, activity, and profile. Below the navigation bar, a post from 'Instagram' is visible, featuring a video thumbnail. Underneath the post, there's a list of comments, including one from 'Instagram' and another from 'Instagram'.

My Device" - Add - select "Scan" - scan the QR code on the phone, four digits will appear on the screen of watch, enter the four digits on the app to pair. After 2 seconds it shows that the pairing is successful it indicates that the phone and watch have been connected successfully.

Note: If the watch has been bound to a device (for example, mobile phone), you must unbind the watch on the iW2000 app, and then the iW2000 app on an bind another mobile phone and use it to play the game. The watch can only be bound after the app of another mobile phone is connected to the watch by Bluetooth.

Once the "Unbind Successfully" interface appears, that indicates the unbinding is successful.

How to unlock the watch on the Ten-Meter HQ0000 app?

FAQ

1. Why is there less QR codes displayed, and what are the function of the two QR codes?

The first QR code is for the app. After you download the app, you can successfully bind the device to the watch. For app, you can use the app to control the watch. The second QR code is for the watch. After you download the app, you can use the app to control the watch.

2. After the app is downloaded successfully, why is there no response to the app?

First, confirm whether the scanned QR code is correct. Please, after the device is bound to the watch, the QR code is the Ten-Meter HQ0000 app. Secondly, in addition to the mobile phone's Bluetooth, the app needs to be connected to the watch's Bluetooth. Please confirm whether the app is connected to the watch's Bluetooth.

3. The screen-on time is too short, how can I adjust it?

To adjust the screen-on time, follow the path on the watch dial to set Settings > Control Center > Screen-off time. You can set the screen-off time after entering.

4. Where to adjust the style of the dial?

Adjust the dial style and set it according to the path: Settings > Community > Watch > After entering several minutes, the dial style.

5. How to set up a message reminder?

First, the watch is linked to the mobile phone. Secondly, the watch is linked to the mobile phone. Thirdly, the watch is linked to the mobile phone. Fourthly, the watch is linked to the mobile phone.

6. Why is the black screen of the watch unresponsive?

If the watch is not used for a period of time, it will become the sleep mode. You can wake up the watch by touching the screen or pressing the crown.

7. How to solve the problem of not being able to charge?

Judge whether the adapter you are using is a 5V adapter. The charging of the watch needs to support 5V voltage. Please use a 5V adapter to charge.

8. Warning

This information is for reference only and does not constitute a commitment of any form.

The product is not a medical device, and the health data and suggestions provided are for reference only, not as a basis for diagnosis and treatment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
