Instruction Manual	<p><b>1.Car Wireless Charger Manual</b></p> <p><b>Power:15W,10W,7.5W,5W</b>  <b>Effective transmission distance:1-8cm</b> <b>Size:</b>  <b>Middle disk diameter:</b>  <b>12.3cm×7.3cm×2.1cm</b>  <b>Charging interface: Type C</b>  <b>Packing list:</b>  <b>Car bracket x 1, Manual X1,</b>  <b>Data line×1, Car outlet base(clip)×1</b></p>	<p><b>2 功能组件</b></p> 	<p><b>3. Specifications</b></p> <p>1. Color:Graw/Silver  2. Weight:The net output weight is about 118g  3. Material:ABS+PC Vacuum plating  4. Input voltage/current:5V/2A,9V/1.67A  5. Output power:15W,10W,7.5W,5W  automatic identification  6. Working frequency:115-205KHz  7. Induction distance:0-8mm  8. Support specifications:Comply with QI wireless  protocol charging  9. Devices that support QC wireless fast charging  such as iPhone8, iPhone X, iPhone8 plus, Samsung S6,  S6edge, S7, S7edge, S8, S8+, S9+  10. For devices that do not support wireless charging,  you need to use the corresponding The magnetic head  can be used.</p>	<p><b>4. Instructions For Use</b></p> <p>1. Connect the vehicle's wireless charging device to the appropriate  data cable when using it.  2. Connect the USB port of the data cable to the charging interface  on the car(e.g. cigarette lighter switching charger and USB  charging port on the car)  3. The device clip clips the air outlet and can also be placed  elsewhere  4. After the device is powered on 5V-9V DC power supply, it will  automatically check the tension and the red indicator light will be  on. When the object is close to the device 5cm-20cm, the automatic  induction will open the arms and put the phone into the phone, the  device will automatically clamp the phone. At this point, wireless  charging will automatically charge the phone, charging blue light  (mobile phone with wireless charging function) when you remove  the phone you need to touch the back of the shell at the top of the  sensing point, when the hand touches the sensing point position,  the device automatically open double Arm, remove the phone  5. This device has over-voltage protection, over-temperature  protection, magnetic field protection, short-circuit protection  if the device is abnormal, it will automatically stop working  6. Built in battery, it can be opened and closed normally without  connecting power supply, and has a long endurance</p>	<p><b>5. Precautions</b></p> <p>1. Do not over-squeeze or hit the device  2. Do not use the wireless charger under severe high  temperature, humidity or corrosive environment to  avoid damaging the device's circuit</p> <p style="text-align: right;">Thank You For Using This Product</p>

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
