

Wireless Desktop Charger

Features:

- .Hidden Embedding,the desktop does not need to be damaged
- .Smart and convenient charging
- .Easy for assembly for the hole of office desk in the cafe/restaurant/airport/train station

Specification:

- .Model:T8
- .Input:DC5V-2A,9V-1.67A
- .Wireless Output:5W 7.5W 10W 15W
- .Standby energy consumption:<10mA
- .Working frequency rang:110-205KHZ
- .Transferefficiency:73%(MAX)
- .Launch distance:8mm
- .Installation diameter:72mm
- .Size:D73*13mm
- .Weight:110g
- .Authenticate:CE FCC ROHS

Use:

- .Phone built-in or add a wireless receiver to it
- .The led indicator remains red when connected to the power and charges to blue after successful connection.
- .Qi standard transmitter is charged automatically once recognized approximately 5 secondsd.If you put the offset distance 9mm not charge.

The surface of the table is not affected

Installation:

In office desk(Diameter 72mm)
Punch hoie diameter 72mm by professional people
It can be used on cafe/restaurant/airport/train station

Made in china

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
