

INSTRUCTION MANUAL

This is a high quality product and must be installed and maintained as per these instructions or it may invalidate the Warranty.

To installer: Please leave this manual with the user/householder when finished.

WARNING:

When using electrical appliances, comply with basic safety precautions in order to reduce the risk of fire, electric shocks and personal injury.

GENERAL INSTRUCTIONS

No-one, and in particular no child, must be in the vicinity of the workplace. Check that the electrical specifications of this mirror light are compatible with your installation.

WARNING:

The power supply must be switched off before installation or maintenance. Remove The fuse or de-activate it, and make sure that it cannot be reactivated.

The mirror light must be installed by a qualified electrician in accordance with the wiring standards in force in the country where the installation takes place.

This electrical product complies with the safety standards in force. Repairs must only be carried out by qualified technicians using original spare parts. Any failure to follow these instructions can be particularly dangerous to users and will invalidate the Warranty.

Installation Instructions:

1. Fix the screw(s) on the wall where the mirror is to be placed.

Screw fastenings should be made in concrete or other solid structure, or in structures that have been tested and approved for fastenings.

Before drilling a hole, make sure that there is no risk of drilling through an existing non-visible cable or pipe; and make sure that the hole position for the expansion screw fits the mirror and the hanging direction.

2. Isolate the power supply by means of the electrical system main switch.

3. Connect the electricity supply to the mains cable (110 V~), making sure that the conductors match (mains brown and neutral blue).

4. Carefully attach the mirror to the wall, making sure the mirror hanging properly and level.

5. Restore the power supply.

6. Switch on the mirror light. Your mirror light is now ready to work.

Short Touch - ON/OFF

Long Touch - Dimming

The demister starts working when switching on the mirror light.

Cleaning and Maintenance:

Clean regularly and wipe off excess moisture by using a dry cloth only. Installation and maintenance must only be carried out by a Qualified Electrician.

Installation Manual

| Input: 100V~120V | Lumen: 825lm | Sound pressure: 84~90dB |
| Output: 12VDC 2.5A MAX | CCT: 6000k | Impedance: 4Ω |
| Power: 26W | Power: 15W | Ra>90 |

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
