

Solder Board-Component View 8	 A photograph of a green printed circuit board (PCB) with various electronic components, including integrated circuits and resistors. The board is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is placed vertically on the left side of the board, with the 0 mm mark at the top. The board is oriented horizontally, and the ruler shows measurements from 0 to 100 mm on the left and 0 to 200 mm on the right.
Solder Board-Component View 9	 A photograph of a blue printed circuit board (PCB) with various electronic components, including integrated circuits and resistors. The board is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is placed vertically on the left side of the board, with the 0 mm mark at the top. The board is oriented horizontally, and the ruler shows measurements from 0 to 100 mm on the left and 0 to 200 mm on the right.

Solder Board-Component View 10	 A photograph of a blue printed circuit board (PCB) populated with various electronic components, including integrated circuits, resistors, and capacitors. The board is positioned horizontally against a black L-shaped ruler. The ruler's vertical scale on the left ranges from 0 to 100 mm, and the horizontal scale at the bottom ranges from 0 to 100 mm. The background is a light blue textured surface.
Solder Board-Component View 11	 A photograph of a small green PCB component with a multi-colored ribbon cable attached. The component is placed on a black ruler. The ruler's vertical scale on the left ranges from 0 to 100 mm, and the horizontal scale at the bottom ranges from 0 to 100 mm. The background is a light blue textured surface.

Solder Board-Component View 12	 A photograph of a small green printed circuit board (PCB) component. The component has several gold-plated pins on one side and a multi-colored ribbon cable attached to the other. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 13	 A photograph of a larger green printed circuit board (PCB) assembly. The board is populated with various electronic components, including a large central chip, several smaller chips, and connectors. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
