

1. If there has no WIFI, firstly open 4G network of iPhone, then open WIFI hot spot in the "Settings" interface of the phone.
2. Collect iPhone's hot spot WIFI for the projector.
3. Open "Eshare".
4. Open "Airplay" / "Screen Mirror".
5. Find the projector and click.

1. Ensure the Phone and Projector are under the same WIFI.
2. Open video software of the mobile phone and finds the TV push icon in the four corners (it's usually on the top right or on the bottom right) (Each APPs have different push icon design).

* Note: Not all video software have function of push.

3. Click this icon to push videos to the projector. At the same time, we can have other operations on the phone, it will have no conflict.

Shenzhen Wanbo Technology Co., Ltd
