

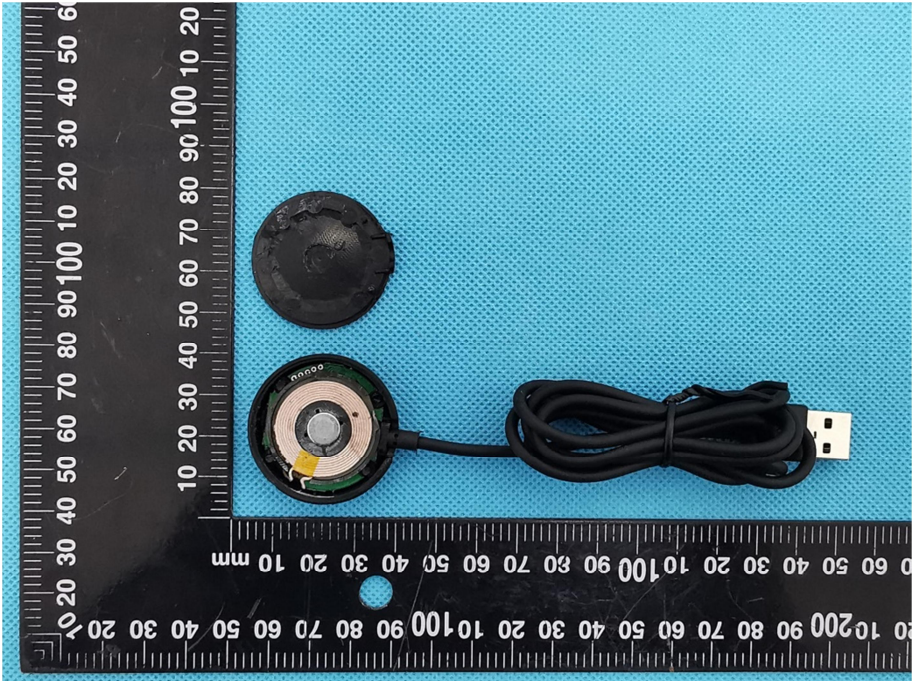

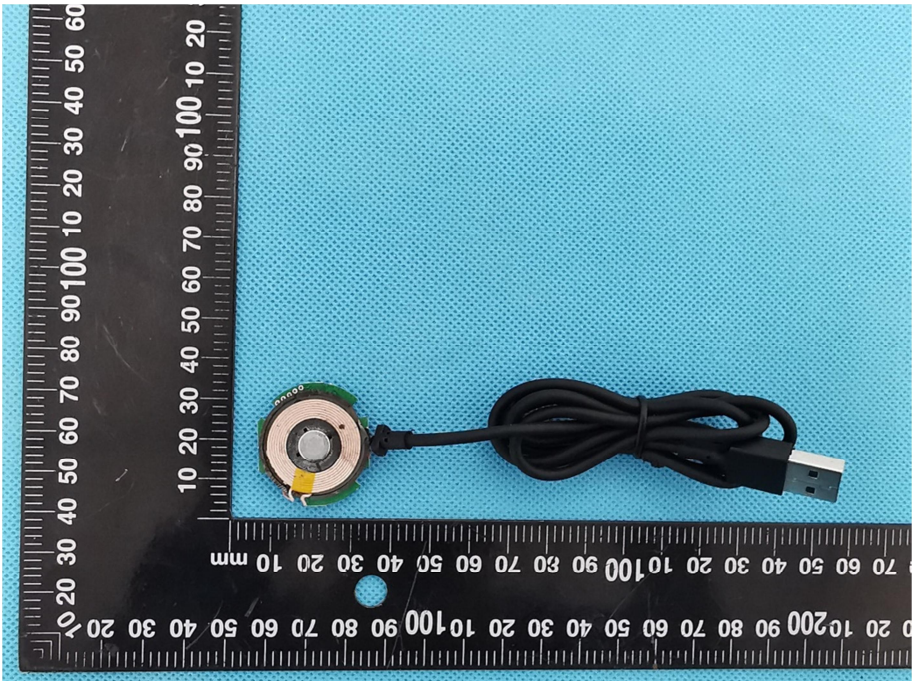

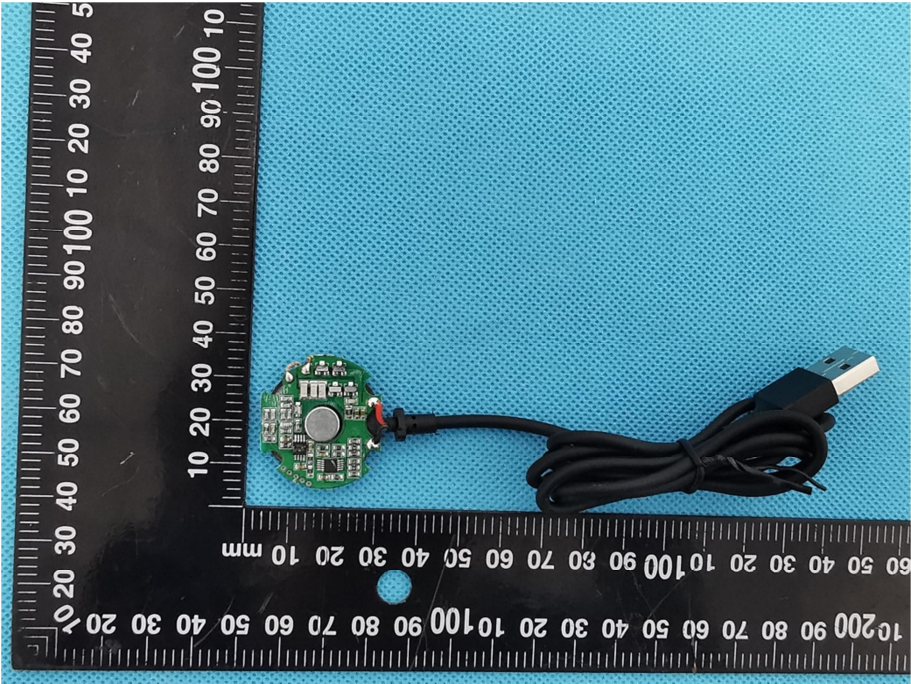

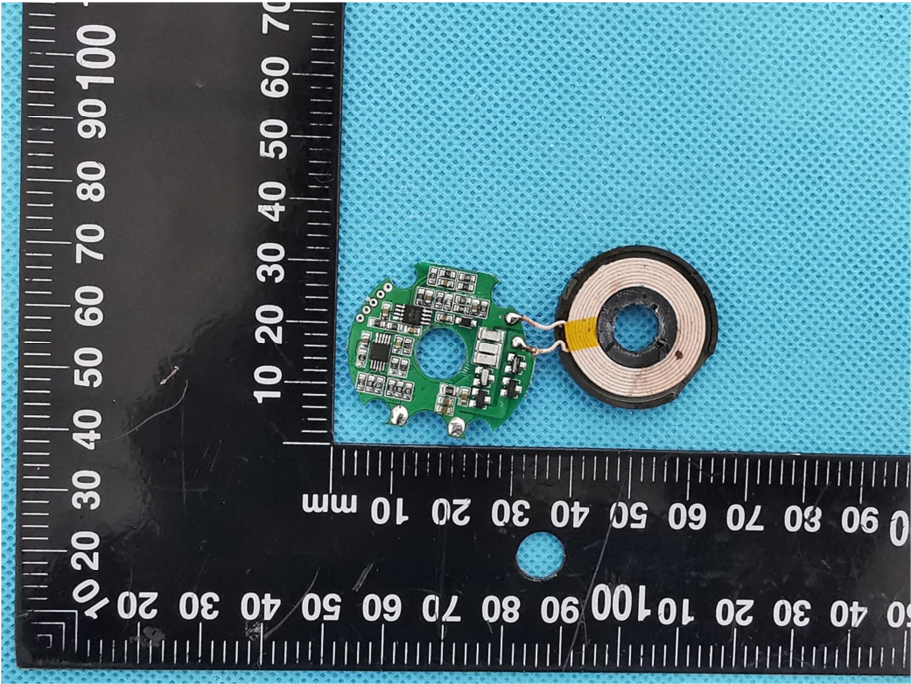

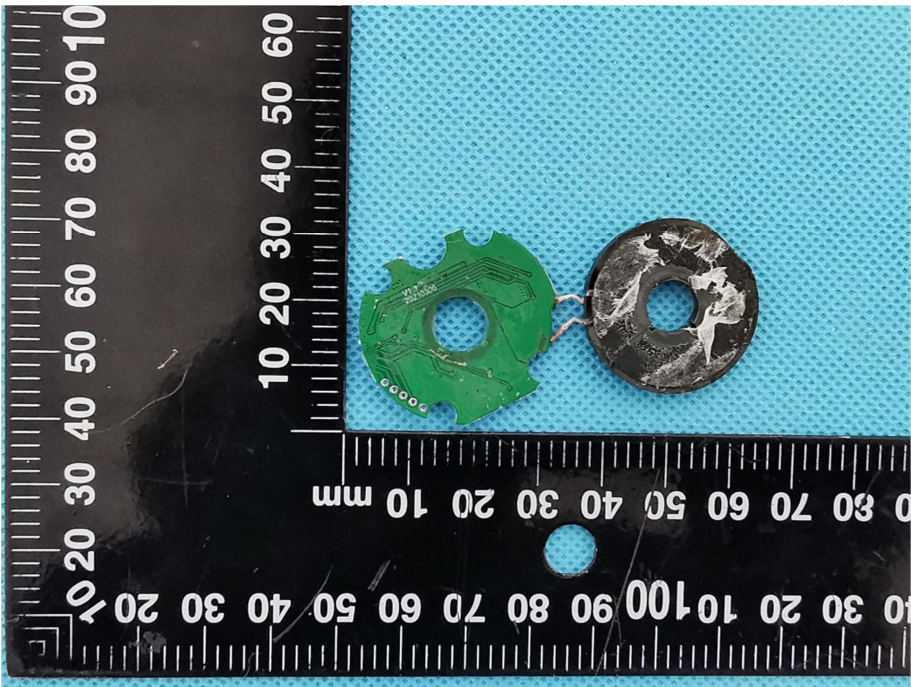

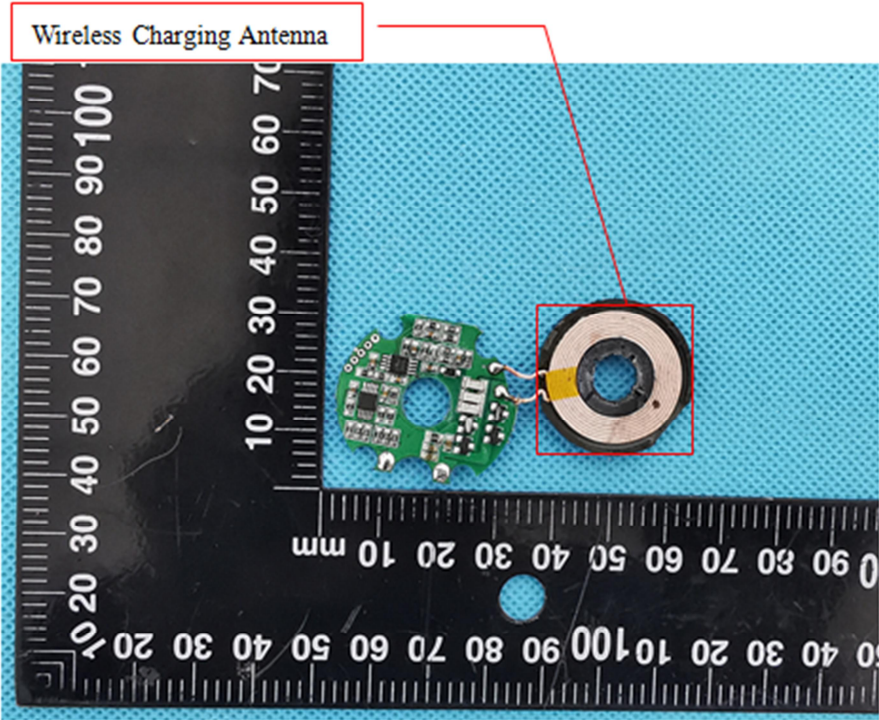

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the EUT housing and board assembly. The assembly consists of a black plastic housing and a green printed circuit board (PCB) with a circular component. A black USB cable is connected to the board. A black ruler with white markings is placed next to the assembly for scale. The ruler shows measurements in centimeters and millimeters. The background is a blue textured surface.
Solder Board-Component View 1	 A photograph showing the solder board-component view. The assembly consists of a green printed circuit board (PCB) with a circular component. A black USB cable is connected to the board. A black ruler with white markings is placed next to the assembly for scale. The ruler shows measurements in centimeters and millimeters. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph showing a small green printed circuit board (PCB) with various electronic components, including a circular component and several surface-mount components. The PCB is connected to a black cable with a USB-A connector. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.
Solder Board-Component View 3	 A photograph showing the same green PCB as in View 2, but now connected to a circular component with a black outer ring and a silver-colored inner ring. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.

Solder Board-Component View 4	 A photograph showing a green printed circuit board (PCB) and a circular black component, likely a wireless charging antenna, connected by a solder joint. The components are placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Antenna View	Wireless Charging Antenna  A photograph showing the same green PCB and circular black component, but from a different perspective. The circular component is highlighted with a red rectangular box, and a red line points from the text "Wireless Charging Antenna" to it. The components are placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
