RE: CONFIDENTIALITY REQUEST FOR Imagio 9100, FCC ID# 2A7QE-9100
To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the system schematics and RFID schematics required to be submitted with this application be permanently withheld from public review.

These documents contain detailed system and equipment descriptions and related information about the product, which Seno Medical Instruments considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, Seno Medical Instruments feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

Ann Waterhouse
VP QA/RA
