## Attestation Letter

FEDERAL COMMUNICATIONS COMMISSION

Authorization and Evaluation Division

7435 Oakland Mills Road

Columbia, MD 21046

Dear Sir or Madam:

The chip QCA9377 installed in our product 4G LTE Mobile Router, FCC ID: 2A7R8U2A , which support 2.4G wifi, 5G wifi and Bluetooth functions. But for the product, it only activates 2.4G wifi. Bluetooth and 5G wifi modewas disabled by software

The device has two WWAN modules (Module A and Module B), both of them support the GSM, WCDMA, LTE functions. But for Module A, only WCDMA B2/B4/B5, LTE B2/B4/B5/B7/B12/B41 were activated. For Module B, only WCDMA B2/B4/B5, LTE B2/B4/B5/B7/B41 were activated. Other bands we re disabled by software.

Please contact me if there is need for any additional clarification or information.

Best Regards,  
Sincerely Yours,

Signature:
