Inquiry on 06/16/2022 :

Inquiry:

Good day,

I have a project is Wireless power bank, portable and mobile are applicable. Please see user manual attach. According to TCBC Workshop measurement guidance, tested and prepared test report has attached, Please help to check whether RF Exposure Evaluation Report can accept. Waiting for your information. Thanks for your attention! Best Reg

FCC response on 06/28/2022

The submitted RF exposure report is satisfactory. Because the device is portable, it does not meet all six conditions of Clause 5B in KDB 680106 and will still be subject to a PAG filing from the TCB.
