

Fresh Flower Night Light Bluetooth Speaker Instruction Manual

This product is made from a fine selection of natural fresh flowers. After the flowers are specially processed, they are sealed in a high transparency crystal, preserving its natural beauty and vibrancy. As the flowers are naturally grown, color, shape and size of the flowers may vary in every product.

Power: 2W

Light Color: Warm white (3000K)

Brightness adjustment: By touch button

Lithium battery capacity: 3.7V/800mA

Input: DC5V~500mA/1000mA

Material: Beech + Flower Specimen Crystal Ball

How to use the button: (located at the front of beech base)

(A) Push the button down: There is a voice indication, the Bluetooth speaker is on and ready for pairing. Return the button, the Bluetooth speaker is off.

(B) Short touch the button: Turn light on/off

(C) Long touch the button: Adjust the brightness of light

Power: This product comes with a USB power adaptor cable. Crystal will light up slightly during charging. Yellow indicator light will go off after full charge of 2-3 hours. Product is able to light up to estimated 6-8 hours after full charge.

To note: As the crystal is molded and formed at high temperature, flower petals may be slightly scotched. This is normal during the manufacturing process.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.
