Columbia, Maryland 21046

RE: Submission of FCC ID: 2A7TQRN0001

Dear Madam or Sir.

Pursuant to the provisions of the Commission's rules Title 47 CFR Sections §0.457(d) and §0.459, we are requesting the Commission to withhold some confidential documents from public disclosure.

These documents contain detailed system and equipment descriptions and are considered as proprietary information in operation of the equipment. The public disclosure of these documents might be harmful to our company and would give competitors an unfair advantage in the market. Therefore, long term confidentiality is requested for the following attachments;

Internal Photos (This is because we use a proprietary manufacturing process for both coating a thin-film zinc battery and ACP bonding components to a plastic substrate, of which is subsequently laminated with epoxy adhesive into a polyurethane foam, forming a non-openable lamination stack inaccessible to end users)

In addition;

Schematic Diagram
Block Diagram
Parts List
Operational Description

In additional to above mentioned documents, in order to comply with the marketing regulations in Title 47 CFR §2.803 and the importation rules in Title 47 CFR §2.1204, while ensuring that business sensitive information remains confidential until the actual marketing of newly authorized devices, we request Short Term Confidentiality of the following attachments;

External Photos
Test Setup Photos
User Manual

For 180 days pursuant to KDB 726920 D01.

It is our understanding that all measurement test reports, FCC ID label format and correspondence during the certification review process cannot be granted as confidential documents and this information will be available for public review once the grant of equipment authorization is issued.

Sincerely,

Brian Krejcarek
CEO, Reelables, Inc.
