| Item	Quantity
Door/Window Sensor	1
Magnet	1
CR2032 Battery	1 (Pre-Installed)
Adhesive Tape	2 (Pre-Installed)
User Manual	1

Introduction

The Govee Door/Window Sensor has a built-in high-precision reed switch and a precision circuit. It can detect the open/close status of doors, windows, drawers, etc., and can be fixed to most indoor surfaces with

adhesive tape. Based on the Bluetooth communication with Govee's unique distributed gateway, it can transfer the detected open/close status as a condition to trigger automation and send the information to Govee Home App or execute commands from other Govee products to achieve multiple intelligent scenarios.

Part Names

a. Door/Window Sensor
b. Magnet
c. Function Button
d. Indicator Light
e. Marker Lines
f. Bottom Cover
g. Open Slot
h. Battery
i. Insulation Sheet

Controls

Function Button

Press and hold the function button for 3 seconds. When the indicator light flashes slowly, it means that the device has entered the Bluetooth Broadcast Mode. Please follow the in-app instructions to complete pairing.

Indicator Status

| Indicator	Working Status	Light Status
📶	During the Bluetooth Broadcasting	Flashes Blue

Functions

Open/Close Status Detection

The sensor can monitor the open/close status of objects. You can set the triggering instructions in the app.

Getting Started

1. Open the packaging. Open the bottom cover from the open slot as shown in the picture. Pull out the insulation sheet and tighten the bottom cover up.

2. Press and hold the function button for 3 seconds to enter the pairing mode. Follow the in-app steps to complete the pairing.
3. Remove the liner of the adhesive tape and fix the device where you need them to be. It is recommended to fix the door/window sensor on the stationary surface and the magnet on the moving surface. The gap between the sensor and the magnet should be less than 25mm.

< 25mm

4. Effective Communication Distance Verification: After completing the pairing, you can verify it in the app.

Note:

- Try to align the marker lines on the sensor and the magnet.

- Please ensure the surface is clean and dry.
- In order to ensure the detection accuracy, please do not install it on metallic surfaces.
- For indoor use only.

Govee Home App

You can access more features using Govee Home App.

Downloading Govee Home App

To download Govee Home App, scan the QR code or search for "Govee" in the Apple App Store® (iOS) or Google Play Store (Android).

Govee Home App

For FAQs and more information, please visit: www.govee.com

Note:
- Choose "Allow" to the permissions requested when opening Govee Home App for the first time. These permissions allow the app's features to function normally and are not used to record personal, private information.
- Due to ongoing updates, Govee Home App may be slightly different than shown in this manual. In case of any differences, always follow the in-app instructions.

Pairing with Govee Home App

1. Turn on your smartphone's Bluetooth.

2. Open Govee Home App, tap the "+" icon in the top right corner and search for "H5123."

3. Tap the device icon and follow the on-screen instructions to complete pairing.

Note:
- You can use Govee Home App to connect your air purifier to Amazon Alexa or Google Assistant. Follow the in-app instructions to connect to each voice assistant.

  Govee Home App is being continually updated and its
- features do expand

Troubleshooting

The troubleshooting section below is for solving frequently asked questions. If your problem persists, please contact customer support.

For Motion Sensor

Problem	Solution
The indicator light turns off.	1. Replace with a new battery. 2. Contact customer service.

Open/close status cannot be detected.	1. Check the device battery and make sure it is fully charged. 2. Open the app and ensure the device and the distributed gateway are in the effective communication distance. 3. Please ensure the device is not fixed on metallic surface. 4. If the open/close status cannot be detected, please check if the gap between the sensor and the magnet is less than 25mm. 5. Contact customer service.
Low battery alert from the app.	Change the battery.

For App & Connectivity

1. Cannot connect to Govee Home App.
- Make sure your smartphone is powered on and is not connected with other Bluetooth devices.
- Enable the smartphone's Location Services.

- Try connecting with another smartphone.
- Make sure your app is updated to the latest version.
- Make sure you connect to your Wi-Fi router's 2.4GHz network and that the network is working correctly.
- Make sure the Wi-Fi password you entered is correct.
- Shorten the distance between the air purifier, Wi-Fi router, and the smartphone.
- Make sure your air purifier and the Wi-Fi router are located away from appliances that produce electromagnetic radiation (e.g. microwave ovens, refrigerators, etc.)
- If you are using a VPN, try turning it off and then connecting the purifier.
- Disable portal authentication for your Wi-Fi network. If portal authentication is enabled, this air purifier will not be able to access your Wi-Fi network, and setup will fail. Portal authentication means that you need to sign in to your Wi-Fi network through a web page before you can use the Internet.

2. Cannot find the device on Bluetooth Device Nearby page of the app.
- The dehumidifier may be connected with another smartphone. Disconnect it from the other smartphone first.

3. The air purifier is offline.
- Make sure the air purifier is plugged in and powered on, then refresh "My Devices" in Govee Home App by swiping down on the screen.

- Make sure your router is connected to the internet, and your phone's network connection is working.
- If the Wi-Fi password has been changed, the air purifier will automatically go offline. Try connecting it to the network again.
- Delete the offline air purifier from Govee Home app, then add and reconfigure the air purifier again in the app.

Specifications

Model Name	H5123
Power Supply	CR1632
Power Input	3V 8mA
Working Temperature	-10°C to 50°C/14°F to 122°F
Bluetooth Communication Distance	80m/262ft（No obstacles）

FCC Statement

This device complies with Part 15 of the FCC Rules . Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and

---

on, the user is encouraged to try to correct the interference by one or more of the following measures:
1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
