**Item Locator
Quick Start Guide**

Getting Started — 01

1. **Power On / Off:**
   • Press your Item Locator's function button once to turn on - it should beep once indicating it is powered on
   • To power off, hold the same button for at least 3 seconds. You will hear 2 beeps indicating your Item Locator is powered off

2. **Check For Updates:**
   • To use the Apple Find My app or the Find Items app on Apple Watch to locate your Item Locator, the latest version of iOS, iPadOS, watchOS or macOS is recommended

Function Button ➔
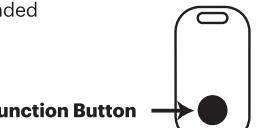

Add Your Item Locator — 02

1. **Start the App**
   • Open Find My app on your supported iPhone or iPad
   • Allow notifications from the app

2. **Connect your Item Locator**
   • Power on your Item Locator
   • Tap "+" then "Add Other Item"
   • Once your Item Locator is located, tap "Connect"
   • Choose a recognizable name and emoji for your Item Locator and tap "Continue"
   • Find My will ask for confirmation to add your Item Locator to your Apple ID - tap "Continue"
   • Tap "Finish" and your Item Locator will be set up and ready to be connected to whatever item you wish to locate, e.g., your keys

---

Locate Your Item — 03

1. **Find Item Locator when it is Nearby**
   • Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch
   • Tap on your Item Locator from the list
   • Tap "Play Sound" to make your Item Locator beep
   • Tap "Stop Sound" to stop the beeps once you find your item

2. **Find Item Locator's Last Known Location**
   • Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch
   • Tap on your Item Locator from the list
   • Your Item Locator's last known location will appear on the map
   • To navigate to that last known location, tap "Directions" to open the Maps app

---

Find Item When Out of Range — 04

1. **Enabling "Notify When Left Behind"**
   • Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch
   • Tap on your Item Locator from the list
   • Under "Notifications", enable the "Notify When Left Behind" toggle
   • You will receive a notification when you leave your Item Locator behind and it's no longer in range of your device

2. **Enabling "Notify When Found"**
   • Under "Notifications", enable the "Notify When Found" toggle
   • When your Item Locator is seen by another Find My enabled device, you will receive a notifcation of its updated location
   • **Note:** "Notify When Found" can only be activated when your Item Locator is out of range

---

When Your Item is Lost — 05

1. **Enabling "Lost Mode"**
   • Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch
   • Tap on your Item Locator from the list
   • Under "Lost Mode", tap "Enable"
   • A screen detailing Lost Mode will pop up, tap "Continue"
   • Enter your phone number or email address and tap "Next"
   • You may enter a message that will be shared with the person that finds your item
   • Tap "Activate" to enable "Lost Mode"
   • **Note:** When "Lost Mode" is enabled, "Notify When Found" is automatically enabled
   • **Note:** When "Lost Mode" is enabled, your Item Locator is locked and cannot be paired to a new device

---

We'd love to hear from you. Please send an email to etriptag@etrippet.com and let us know what you think.

Resetting Your Item Locator — 06

1. **Remove the Item Locator from Find My™ app**
   • Open Find My app and select the "Items" tab
   • Tap on your Item Locator from the list
   • Please ensure "Lost Mode" is disabled
   • Scroll to the bottom of the screen and tap "Remove Item"
   • A summary will open, tap "Remove" to confirm

2. **Factory Reset Your Item Locator:**
   • After successfully removing the Item Locator from Find My app, press the Item Locator's function button four times rapidly, you will hear a beep each time you press it and then hold it a fifth time until you hear a ringing chime
   • The Item Locator is now reset and ready to be paired to a new device

---

But Wait... There's More — 07

1. **Replace the Battery:**
   • Use your fingernails at the small gap on the side of your Item Locator to carefully open the case
   • Replace the battery with a new CR2032 battery placing it positive side up (text facing up)
   • Carefully align the top hole on both sides to close

2. **Unwanted Tracking Detection:**
   • If any Find My network accessory separated from its owner is seen moving with you over time, you'll be notified in one of two ways: (1) If you have an iPhone, iPad, or iPod touch, Find My will send a notification to your Apple device. This feature is available on iOS or iPadOS 14.5 or later. (2) If you don't have an iOS device or smartphone, a Find My network accessory that isn't with its owner for a period of time will emit a sound when it's moved. These features were created specifically to discourage people from trying to track you without your knowledge.
