Led Strip Lights

DreamColor

FCC-ID:2A7WU-D32133

V2.0

How to Connect?

Step1: Connect LED Controller with LED Light Strip.

Step2: Connect the LED Controller with power supply.

Step3: Plug in the power supply.

Power-on Test

Before Your Installation

1. Unpack the box and check all items included.
2. Power on the strip light and check whether it lights up. Caution: Do NOT power on before unrolling the strip light.

How to Install?

1. Stick on the smooth, dry, clean surface.

2. Any rough and dusty surface can not be stuck.

3. Clean the surface, dry out and stick it.

4. Press the whole strip light repeatedly with force on BLANK area.
Do NOT press components.

5. Place the strip lights in the right way.
(The strip lights can not be headed down.)

When it is necessary to bend, please try to avoid electronic components like light beads and IC and pads on the strip light, so as not to damage the strip light.

Recommended Tip: Try to bend with a bigger radian to protect the strip light and electronic components on it.
