Led Strip Lights

DreamColor

FCC-ID:2A7WU-D32133-30A

V2.0

How to Connect?

Step1: Connect LED Controller with LED Light Strip.

Step2: Connect the LED Controller with power supply.

Step3: Plug in the power supply.

Power-on Test

Before Your Installation

1. Unpack the box and check all items included.
2. Power on the strip light and check whether it lights up. Caution: Do NOT power on before unrolling the strip light.

How to Install?

1. Stick on the smooth, dry, clean surface.

2. Any rough and dusty surface can not be stuck.

3. Clean the surface, dry out and stick it.

4. Press the whole strip light repeatedly with force on BLANK area.
Do NOT press components.

5. Place the strip lights in the right way.
(The strip lights can not be headed down.)

When it is necessary to bend, please try to avoid electronic components like light beads and IC and pads on the strip light, so as not to damage the strip light.

Recommended Tip: Try to bend with a bigger radian to protect the strip light and electronic components on it.

Wrong Demonstration

Recommended Tip: Try not to bend at electronic components like light beads, bonding pad to avoid short circuit.

Pairing Instructions

1. Download the APP and install on your phone.
2. Turn on the Bluetooth on your phone.
3. Open the APP, tap the "+" icon in the top right corner and search new device.
4. APP will show the device found, just add it.
5. Tap the device icon to enter control panel.

Tips and Cautions

1. Use the product with the provided power adapter and control box only.
2. Unroll the strip light before powering on.
3. Do power on test before installation.
4. Pull out the transparent sheet from IR remote before using.
5. Be cautious of static electricity during installation and usage.
6. Do NOT allow children to install the strip light alone.
7. Please turn off the power and unplug the adapter if the strip light will not be used for a long time.
8. Keep the product away from sharp objects or strong corrosive chemicals.
9. Please do NOT connect more strips to the product which will cause the power adapter overload.
10. Adjust mic sensitivity and the distance between sound source and phone/device mic in Music Mode to get best music sync etc.
11. Please contact us if you have any problem or get a defective product. We will reply within 24 hours.

Troubleshooting

- 1. APP can not find the device.**
Make sure the phone bluetooth is on.
Allow the permissions of APP. APP needs them to connect the device.
Check whether the strip light is on. Or use remote control to check whether the light is working.
Kill APP, turn off bluetooth and turn on bluetooth again, then start APP to add device again.
Ensure phone within 4ft of product without obstructions when connecting.
Your phone may be incompatible with the APP, try another phone.
- 2. All lights don't work.**
Check whether the power is on.
Press ON and press "brightness up" multi times on remote.
Connect APP and turn on light and turn up brightness.
Reinstall all parts.
- 3. Some light beads keep off or fail working.**
Contact our support team.

Customer Service

If you have any questions or product issues, please contact seller via the email on the package or get the product support on the order page in your purchasing account.
All messages will be replied within 24 hours.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
