Install App

Method 1 : Search and download 'DayBetter' APP on APP store or Google Play. NOTE: APP name is 'DayBetter'.	Method 2 : Scan or click the QR code below and switch to APP store or Google Play to download.
	

Please allow permissions required by APP. We guarantee information security.

Log In

You can either log in by Email verification code or by password.

- (1) New user please create new account first.
- (2) You can set password on App setting page, then you can use password to log in.

Turn on phone WiFi and bluetooth

Turn on bluetooth and Wi-Fi on your smart phone and connect phone to 2.4GHz Wi-Fi. (After config device online, you can switch phone to other Wi-Fi)

Note:
5GHz Wi-Fi is not supported.

Search and Add device

Click "Go to search" to search nearby devices.

Go on to connect device to WiFi .

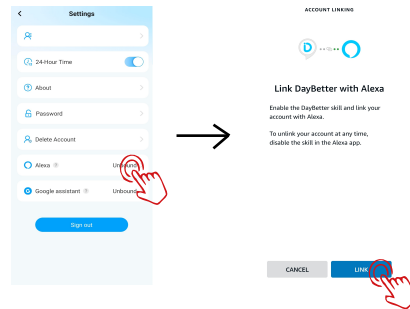

NOTE: 1. Please move device close to WiFi router to help connect.
2. Try again if fail which may happen rarely.
3. If still failed, please reset device and try again.

Link Alexa or Google Home

Method 1: Bind Alexa on DayBetter APP(Recommended)

- (1) Go to APP setting page and click Alexa tab to call LINK page.
- (2) Then just click LINK on the link page.
- (3) Wait a second. Success. You can find online device shown up on Alexa APP.

Note: Ensure the device is WiFi-connected and Alexa APP already logged in, before you link to Alexa.

Method 2: Bind DayBetter on Alexa APP(NOT recommended)

Search and enable 'DayBetter' skill on Alexa APP.
Please scan the QR code for more help.

Please scan the QR code for how to link Google Home.

Trouble Shooting

a) APP can not find the device.

- Make sure the phone bluetooth is on.
- Allow the permissions of APP. APP needs them to connect.
- Kill APP, turn off bluetooth and turn on bluetooth again, then start APP to add device again.
- Ensure phone within 4ft from product when connecting.
- Your phone may be incompatible with the APP, try another phone.

b) Failed to connect to Wi-Fi.

- Check Wi-Fi supports 2.4GHz. Not 5GHz.
- Reset device by hold button for 5 seconds until LED flashes.
- Bring device close to Wi-Fi router to improve signal.
- Add device and connect it to Wi-Fi again.

c) Device not shown on Alexa APP.

- Remove device from DayBetter APP and add the device again.
- Unlink Alexa, and Link Alexa again.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
