Control by APP and Remote

1. Scan the QR code on controller to install the APP.
2. Turn on the Bluetooth on your phone.
3. Open the APP, tap the "+" icon in the top right corner and search new device.
4. APP will show the device found, just add it.
5. Tap the device icon to enter control panel. Just explore it.

Information to User

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Troubleshooting

1.APP can not find the device.

- Make sure the phone bluetooth is on.
- Allow the permissions of APP. APP needs them to connect the device. Check the light is on.
- Kill APP, turn off bluetooth and turn on bluetooth again, then start APP to add device again.
- Ensure phone within 4ft of product without obstructions when connecting.
- Your phone may be incompatible with the APP, try another phone.

2.All lights don't work.

- Ensure the power is on.
- Connect APP and turn on light and turn up brightness.
- Check the connector whether is loose or of wrong order.

3. What is the maximum number of devices I can control in a group?

- You can add up to 4 devices in one group.
- If need, purchase our WiFi product to control more in one group.

Customer Service
