- 1 * User Manual

2. Indicator Chart:

3. How to use it?

3.1 Charging

Charge the headphone via the magnetic charging cable. The indicator light is red when charging and it will change from red to blue when charging is complete.

3.2 Powering On and Enter Bluetooth Pairing Mode

Press the power button for 3 seconds will power on the headphone, the indicator light will flash red and blue alternately. At this status, the headphone will enter Bluetooth pairing mode by default.

3.3 Bluetooth Connection

After power on the headphone and enter Bluetooth pairing mode, then open the Bluetooth menu on your cellphone, search and select "SuperQ4 ". You will hear the prompt voice "Connected" when the headphone is connected to the cellphone successfully, the indicator light will turn off.

3.4 Enter MP3 Mode

Press the power button for 3 seconds to power on the headphone, the indicator light flashes red and blue alternately which means the headphone enter Bluetooth pairing mode by default. But at this time, if you want to enter MP3 mode, just click the power button twice in quick succession, the headphone will switch to MP3 mode from Bluetooth mode.

3.5 Switch between MP3 mode and Bluetooth mode

When the headphone is in Bluetooth mode, we can switch to MP3 mode from Bluetooth mode at ease just by clicking the power button twice in quick succession.

But the headphone will switch back to Bluetooth mode automatically if we play music or watch video or answer calls, even it is in MP3 mode. So we don't need to click the power button twice

to switch back to Bluetooth mode from MP3 mode.

3.6 Powering Off:

Press the power button for 3 seconds will power off the headphone, the indicator light will flash red and then off.

8. Q&A

(1) Why choose bone conduction headphones?

Bone conduction technology creates sound waves by vibrations, sound transmit via temporal

bones to your inner ear, which will protect the tympanic membrane from injury and keep our ears hygienic.

It only weight 28g, which can give our ears all day comfort for a long time use, without burden feeling, no swelling feeling, no bacteria breeding in the ear canal.

The open ear design allows you to hear the outside world when you are wearing headphones to listen music outdoors, which can make us keep alert to our surrounding to avoid danger.

(2)How to connect with two different devices simultaneously?

- a)Switch on Bluetooth of device A and connect the headphone with it.
- b)Switch off the Bluetooth of the device A
- c)Switch on the Bluetooth of device B and connect the headphone with it
- d)Switch on Bluetooth of device A again

(3)Are these headphones waterproof?

Yes, Our headphones have been tested and certified IP68 water proof.

(4)Is it suitable for swimming? What should I do before swimming with my headphones?

Yes, it is designed for swimming. This headphones is IP68 waterproof and it built in 32G memory card which can switch Bluetooth mode and MP3 mode easily.

But water can affect Bluetooth transmission while swimming.To ensure a better swimming experience, please disconnect Bluetooth connection on your phone or click twice the power button to switch to MP3 mode. You can enjoy audio that you upload in the memory card in your headphone.

(5)How do I upload audio files to the headphone?

Connect the headphone to your computer using the magnetic charging cable's USB port. Wait for the memory card drive to pop up, then drag and drop your audio files into the drive. It is compatible with MP3, WAV, AAC, APE and FLAC file types.

(6)If I want to change another device to pair with my headphone, how should i do?

The headphone will connect to the last device it connected with last time automatically, If you want to pair it with a different device, please ensure to forget it on the last device (clear the Bluetooth connection records on the previous device) and then try to pair it with the other device again.

9.Data Transfer

Connect the headphone with a computer using the magnetic data cable, you will see a mobile storage device named "Powersport" displayed on the computer side. Once device shows up on your computer, you can drag or copy your files into the folder.Do not interrupt during data transfer, otherwise the product may be damaged.

10.Storage and maintenance

1. Headphones should be stored in a cool and dry place. The operating temperature should be 32

- F ~113 F Working in too cold, too hot, or excessively humid environment may shorten battery life.
2. After a long time period of storage, please charge it again before use.
 3. Listening to music at too high volume may damage your hearing and the sound may be destroyed.
 4. Please don't charge immediately after exercise in case that the headphones circuit will be damaged by the sweat remaining in the charging port.
 5. Keeping the charging port dry before charging, which will reduce the risk of headphones

11.FCC Statement

NOTE:This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution!

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
