

# Open Ear Wireless Ai Earbuds

## User's Manual (YW07)

### 1.First Use

1. Prior to first use, please ensure to remove the protective film from the earbuds.
2. Put the earbuds back into the charging case and connect the charging case to a power source with the provided Type-C charging cable. Allow them to charge for at least 10 minutes, especially if they haven't been used for an extended period. It is crucial not to remove the earbuds from the case while they are being charged.

### 2.Power On

The earbuds will automatically be powered on once they are taken out of the charging case.

### 3.Bluetooth Pairing

After taking the earbuds from the charging case, the left earbud will flash red and blue alternatively.

Select "YW07" on your device's Bluetooth list to connect them. During pairing, the LED

light on the left earbud will keep flashing red and blue alternatively.  
Once connected, the Led light will stop flashing.

✂ Once connected, the earbuds will automatically reconnect to your device every time you take the both earbuds out from the charging case, as long as you haven't deleted the pairing history from your device.

#### **4.Charging**

1. The earbuds are in charging once they are placed in the charging case.  
The led light on the earbud is solid red during charging, it will turn off after fully charged.
  2. Charge the charging case to a power supply with a type-C charging cable. The Led light of the charging case will flash red during charging, it will turn off after fully charged.
  3. Recharging the charging case takes 2 hours via cable.
- ✂ Ensure the earbuds and the type-C charging port are fully dry before charging.

#### **5.Powering Off**

- 1.The earbuds will power off once they are placed in the charging case.
- 2.The earbuds will automatically power off after 3 minutes if they are not connected.

#### **6.How to install Xiao Jie APP ?**

For IOS

For Android

<https://www.pgyer.com/cdUFOztZ>

Scan the QR code or open the link above to Download the “Xiao jie” App, then you can open and log in the App, then “Add Device” to bind your earbuds with the App.

## **7.How to bind earbuds with the App?**

You should connect your earbuds with your cellphone firstly, after that you can bind your earbuds with “Xiao Jie” App.

## **8.What you can do with the Xiao Jie App?**

You can check the battery level of the earbuds, manage your audio, chat with “Deepseek/Doubao/Qianwen”, AI translation by text or voice, make meeting minutes, update firmware, and explore more features.

## **9. How to active Xiao Jie AI assistant ?**

You can active the App by pressing and holding the smart touch button(L/R) for 2 seconds.

| Charging cable                    | Type-C               |

## **16.Storage and maintenance**

1. Earbuds should be stored in a cool and dry place. The operating temperature should be 32 F ~113 F Working in too cold, too hot, or excessively humid environment may shorten battery life.
2. After a long time period of storage, please charge it again before use.
3. Listening to music at too high volume may damage your hearing and the sound may be destroyed.
4. Please don't charge immediately after exercise in case that the headphones circuit will be damaged by the sweat remaining in the charging port.
5. Keeping the charging port dry before charging, which will reduce the risk of headphones

## **17.FCC Statement**

NOTE:This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Caution!

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.

## 18.Customer Service

We offer 30days free replacement and one year warranty for all our products if any issues. You will get free replacement for damaged, defective item.

If any issues, just contact us freely, we' ll handle the rest!
