

Smart Motion Sensor Night Light Model TM-Y0001W Product Description  Front View Right Elevation Distribution network key function 1 Press and hold for 3 seconds (the white light sensor will flash 3 times) to enter the network distribution mode. 2 Short press to turn off the light >> press the third time to turn on the light.	Product Feature 1 Intelligent human body induction night light energy saving and environmental protection. The sensor will automatically turn on the light when the sensor detects a human body. 2 Five-color light APP intelligent adjustment. The sensor will automatically adjust the light color according to the time of day. 3 Five-color light APP intelligent adjustment. The sensor will automatically adjust the light color according to the time of day. 4 Five-color light APP intelligent adjustment. The sensor will automatically adjust the light color according to the time of day. 5 Five-color light APP intelligent adjustment. The sensor will automatically adjust the light color according to the time of day. Technical Parameters 1 Input Voltage: AC100V 2 Input Current: 100mA 3 Sensing Distance: 5m 4 Sensing Angle: 120° 5 WiFi IEEE802.11 b/g/n (2.4 g) Download APP and connect Two smart is available for both IOS and Android. Please scan the QR code to download the app. Support 	Set Up Router Night light only supports 2.4GHz wifi router, not 5GHz router, please set the relevant parameters of the router to support 2.4GHz. The password must be 8-16 characters, including letters, numbers, and special characters. When connecting, please use the default IP address: 192.168.1.1. The default username is admin, and the default password is admin. After the connection is successful, you can enter the router's web page to configure the router. APP Registration Please keep network on/kick 1. Open the app and click "Register". 2. Enter the phone number and click "Next". 3. Enter the verification code and click "Next". 4. Enter the email address and click "Next". 5. Enter the password and click "Next". 6. Enter the verification code and click "Next". 7. Enter the email address and click "Next".	Configure Network for 1. Open the app and click "Next". 2. Enter the phone number and click "Next". 3. Enter the verification code and click "Next". 4. Enter the email address and click "Next". 5. Enter the password and click "Next". 6. Enter the verification code and click "Next". 7. Enter the email address and click "Next".	Let's "Add" >> "+" select the connected WiFi and enter the password, click "Next", wait for the device to connect, then the device will be added to the app. After the connection is successful, you can click the "+" icon to rename the device name, and click "Finish" in the upper right corner. 	On the home page of the APP, click to enter to the device management page. You can click the "+" icon to add a device. After the connection is successful, you can click the "+" icon to rename the device name, and click "Finish" in the upper right corner. 	On the home page of the APP, click to enter to the device management page. You can click the "+" icon to add a device. After the connection is successful, you can click the "+" icon to rename the device name, and click "Finish" in the upper right corner. 	On the home page of the APP, long press the device icon to enter the device management window, select the device that needs to be removed, and click the "Remove" icon to confirm the removal of the device. Click OK to complete the removal of the device. 	Product Installation  The sensor must be inserted into indoor wall panel or installed on a wall. CAUTION 1. The product is not waterproof test, please do not use it in a wet environment. 2. Do not use the product as a toy for children in case of damage. 3. The product is strictly prohibited to disassemble, so as not to cause damage or danger. 4. The product is strictly prohibited to use it in a place that will lead to functional failure. 5. The product is strictly prohibited to use it in a place that will lead to functional failure. 6. The product must be subject to transport failure in case of damage or danger. 7. The product is strictly prohibited to use it in a place that will lead to functional failure. 8. The product is strictly prohibited to use it in a place that will lead to functional failure. 9. The product is strictly prohibited to use it in a place that will lead to functional failure. 10. The product is strictly prohibited to use it in a place that will lead to functional failure. 11. The product is strictly prohibited to use it in a place that will lead to functional failure. 12. The product is strictly prohibited to use it in a place that will lead to functional failure. 13. The product is strictly prohibited to use it in a place that will lead to functional failure. 14. The product is strictly prohibited to use it in a place that will lead to functional failure. 15. The product is strictly prohibited to use it in a place that will lead to functional failure. 16. The product is strictly prohibited to use it in a place that will lead to functional failure. 17. The product is strictly prohibited to use it in a place that will lead to functional failure. 18. The product is strictly prohibited to use it in a place that will lead to functional failure. 19. The product is strictly prohibited to use it in a place that will lead to functional failure. 20. The product is strictly prohibited to use it in a place that will lead to functional failure. 21. The product is strictly prohibited to use it in a place that will lead to functional failure. 22. The product is strictly prohibited to use it in a place that will lead to functional failure. 23. The product is strictly prohibited to use it in a place that will lead to functional failure. 24. The product is strictly prohibited to use it in a place that will lead to functional failure. 25. The product is strictly prohibited to use it in a place that will lead to functional failure. 26. The product is strictly prohibited to use it in a place that will lead to functional failure. 27. The product is strictly prohibited to use it in a place that will lead to functional failure. 28. The product is strictly prohibited to use it in a place that will lead to functional failure. 29. The product is strictly prohibited to use it in a place that will lead to functional failure. 30. The product is strictly prohibited to use it in a place that will lead to functional failure. 31. The product is strictly prohibited to use it in a place that will lead to functional failure. 32. The product is strictly prohibited to use it in a place that will lead to functional failure. 33. The product is strictly prohibited to use it in a place that will lead to functional failure. 34. The product is strictly prohibited to use it in a place that will lead to functional failure. 35. The product is strictly prohibited to use it in a place that will lead to functional failure. 36. The product is strictly prohibited to use it in a place that will lead to functional failure. 37. The product is strictly prohibited to use it in a place that will lead to functional failure. 38. The product is strictly prohibited to use it in a place that will lead to functional failure. 39. The product is strictly prohibited to use it in a place that will lead to functional failure. 40. The product is strictly prohibited to use it in a place that will lead to functional failure. 41. The product is strictly prohibited to use it in a place that will lead to functional failure. 42. The product is strictly prohibited to use it in a place that will lead to functional failure. 43. The product is strictly prohibited to use it in a place that will lead to functional failure. 44. The product is strictly prohibited to use it in a place that will lead to functional failure. 45. The product is strictly prohibited to use it in a place that will lead to functional failure. 46. The product is strictly prohibited to use it in a place that will lead to functional failure. 47. The product is strictly prohibited to use it in a place that will lead to functional failure. 48. The product is strictly prohibited to use it in a place that will lead to functional failure. 49. The product is strictly prohibited to use it in a place that will lead to functional failure. 50. The product is strictly prohibited to use it in a place that will lead to functional failure. 51. The product is strictly prohibited to use it in a place that will lead to functional failure. 52. The product is strictly prohibited to use it in a place that will lead to functional failure. 53. The product is strictly prohibited to use it in a place that will lead to functional failure. 54. The product is strictly prohibited to use it in a place that will lead to functional failure. 55. The product is strictly prohibited to use it in a place that will lead to functional failure. 56. The product is strictly prohibited to use it in a place that will lead to functional failure. 57. The product is strictly prohibited to use it in a place that will lead to functional failure. 58. The product is strictly prohibited to use it in a place that will lead to functional failure. 59. The product is strictly prohibited to use it in a place that will lead to functional failure. 60. The product is strictly prohibited to use it in a place that will lead to functional failure. 61. The product is strictly prohibited to use it in a place that will lead to functional failure. 62. The product is strictly prohibited to use it in a place that will lead to functional failure. 63. The product is strictly prohibited to use it in a place that will lead to functional failure. 64. The product is strictly prohibited to use it in a place that will lead to functional failure. 65. The product is strictly prohibited to use it in a place that will lead to functional failure. 66. The product is strictly prohibited to use it in a place that will lead to functional failure. 67. The product is strictly prohibited to use it in a place that will lead to functional failure. 68. The product is strictly prohibited to use it in a place that will lead to functional failure. 69. The product is strictly prohibited to use it in a place that will lead to functional failure. 70. The product is strictly prohibited to use it in a place that will lead to functional failure. 71. The product is strictly prohibited to use it in a place that will lead to functional failure. 72. The product is strictly prohibited to use it in a place that will lead to functional failure. 73. The product is strictly prohibited to use it in a place that will lead to functional failure. 74. The product is strictly prohibited to use it in a place that will lead to functional failure. 75. The product is strictly prohibited to use it in a place that will lead to functional failure. 76. The product is strictly prohibited to use it in a place that will lead to functional failure. 77. The product is strictly prohibited to use it in a place that will lead to functional failure. 78. The product is strictly prohibited to use it in a place that will lead to functional failure. 79. The product is strictly prohibited to use it in a place that will lead to functional failure. 80. The product is strictly prohibited to use it in a place that will lead to functional failure. 81. The product is strictly prohibited to use it in a place that will lead to functional failure. 82. The product is strictly prohibited to use it in a place that will lead to functional failure. 83. The product is strictly prohibited to use it in a place that will lead to functional failure. 84. The product is strictly prohibited to use it in a place that will lead to functional failure. 85. The product is strictly prohibited to use it in a place that will lead to functional failure. 86. The product is strictly prohibited to use it in a place that will lead to functional failure. 87. The product is strictly prohibited to use it in a place that will lead to functional failure. 88. The product is strictly prohibited to use it in a place that will lead to functional failure. 89. The product is strictly prohibited to use it in a place that will lead to functional failure. 90. The product is strictly prohibited to use it in a place that will lead to functional failure. 91. The product is strictly prohibited to use it in a place that will lead to functional failure. 92. The product is strictly prohibited to use it in a place that will lead to functional failure. 93. The product is strictly prohibited to use it in a place that will lead to functional failure. 94. The product is strictly prohibited to use it in a place that will lead to functional failure. 95. The product is strictly prohibited to use it in a place that will lead to functional failure. 96. The product is strictly prohibited to use it in a place that will lead to functional failure. 97. The product is strictly prohibited to use it in a place that will lead to functional failure. 98. The product is strictly prohibited to use it in a place that will lead to functional failure. 99. The product is strictly prohibited to use it in a place that will lead to functional failure. 100. The product is strictly prohibited to use it in a place that will lead to functional failure.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
