Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or a qualified radio/TV technician for help.

Step 1: Download the HOMEi App

1. Download the **HOMEi** app in the Apple® App Store, Google® Play Store, or use your phone camera to scan the QR code below to open the app store of your mobile phone.

Apple® App Store or Google® Play Store
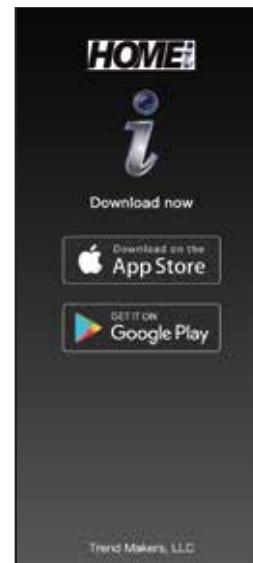

Scan Code

Step 1: Download the HOMEi App

1. In order for your Flood Light Bar to work properly, select **Allow** if you see the prompt: **HOMEi** would like to find and connect to devices on your local network.
2. Create your account and select **Continue**.
3. Follow the App prompts to set up your password and register your camera/device. Then **Log In** to your **HOMEi** app.

Passwords must contain numbers and letters, be no less than six digits, and cannot contain special characters.

FORGOT PASSWORD:
In the App click on "Forgot Password" and follow the account retrieval process. You will receive an email with a temporary code. Enter the temporary code. You will receive a second email with your password.

How to use WIFI Amplifier ?

After your Flood Light Bar completes WiFi® connect, turn on the WiFi® setting in the mobile phone, search for the name : (I_sound_WiFi®)hotspot, and enter the password of your home WIFI router and you can use it now!

How to use Sound Speaker?

1. When your Flood Light Bar is connected to the network, it will release the Bluetooth hotspot, turn on the Bluetooth setting in the mobile phone, and search for the Bluetooth name : I_sound_bar.

2. Click Connect Match, turn on your phone music and use it.

3. When you are watching live screen or operating the Flood Light Bar on APP, the Bluetooth speaker will not work, and it can be restored after exiting the operation.

9

## Step 4: Use Your Flood Light Bar

To get started, open your **HOMEi** app and
follow these easy steps:

1. Choose the device you
     want to control.
2. Tap the image.

3. Tap the Light icon,one-button switch control
    light ON or OFF

4. Select your desired setting:
    - Smart Mode
    - Color Mode
    - B&W Mode
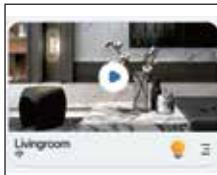

Step 2: Mounting your Flood Light Bar

1. Use the provided screws to secure the
    mounting plate to a wall.

2. Attached Flood Light Bar to the mounting plates.
    Then add an additional line that states:
    Plug into an outlet.

3. Your Flood Light Bar indicator light will flash.

4. Wait 30 seconds for the camera to go through
    its set-up mode. When the set-up mode is
    complete, you will hear the "Welcome to use"
    command.

Step 3: Connect Your Flood Light Bar to the App

1. Press the ➕ **sign** in the App and then select **Add Device**.

2. You will see QR Scan in the HOMEi mobile app, use it to scan the QR Code on your Flood Light Bar.

3. Press and hold the Flood Light Bar button for 2 seconds until you hear a prompt tone.Then click Next step.
