REF: Class II permissive change, pursuant to section 2.1043, for FCC ID: 2A8E8AP-001

Dear Sir or Madam,

Pursuant to section 2.1043, we hereby submit a request for class II permissive change to our *bUBL* Air Purifier, FCC ID: 2A8E8AP-001, Grant date: 01/13/2023.

Description of the change:

	Approved certified product	New
Difference:	 <p>Air purifier</p> <p>Power bank</p> <p>In this construction, the power bank supports power supply and controls the air purifier.</p>	 <p>Air purifier</p> <p>Power bank</p> <p>USB controller</p> <p>In this structure, the USB control is powered by the power bank and controls the air purifier.</p>
RF Parameters and circuit	Same The RF transmitter is integrated in the air purifier, and there are no changes to the air purifier.	
Others	Same	

So in this C2PC application:

New RF test report 68.910.22.0019.02 was provided in this application and the test data of conducted emission and radiated spurious emissions (30-1000MHz) are new test data to verify the compliance of these changes, other test data were refer from 68.910.22.0019.01 of original application and these test data are still effective and representative of the compliance of this change of the product.

As there was not any change on Air purifier, so original SAR test data are representative of the compliance of this change of the product and the SAR test data in original application are still effective.

Sincerely,

Signature
