## Introduction

Welcome! Thank you for choosing **Medesto**. Our goal is to empower individuals with health goals or chronic conditions to live better and healthier lives.

**Adherence:** the extent to which patients take medication as prescribed by their doctors.

**Non-Adherence:** the intentional or unwitting failure to take medications as prescribed.

**Many patients struggle with or do not comply to their medication adherence regimen. This non-adherence can have varying impact on a patient's health.**

That's where we come in.

Our innovative ecosystem includes the **Medesto Connect, Medesto Dispenser, Medesto Pods, and the Medesto App**, which work as a connected system to improve adherence and instill peace of mind in patients and caregivers.

The Medesto Connect is a compact design to sit on a countertop, end table, bed side or taken on the go, to provide connectivity and audio and visual reminders. Scan NFC smart tagged medications or cards to indicate usage taken that day. The Medesto Dispenser is designed to dispense solid medications from the pods and when connected to WiFi and the app, tracks the doses taken or missed.

Medesto Pods can be organized and filled at our in-house pharmacy, Perigon Pharmacy 360, and sent directly to patient or local pharmacies with Medesto Pod filling, contact your doctor to transfer your pharmacy.

The Medesto App makes adherence easy with notifications when it's time for a scheduled dose, as well as alerts for missed doses.

## Set Up & Use

*\*Medesto Connect has no microphone to listen only a speaker to play audio*

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase separation between the equipment and receiver.
- Connect the equipment to an outlet on a different circuit from which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*Changes or modifications not expressly approved by the party responsible for adherence could void the user's authority to operate the equipment.*
