NOTICE

FCC STATEMENT :  
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) This device must accept any interference received, including interference that may cause undesired operation.  
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
Reorient or relocate the receiving antenna.  
Increase the separation between the equipment and receiver.  
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Notice:Charging Statement  
When charging your device, you must use a charger and charging cable that meets USB-IF certification and FCC certification.

MOUNT THE CAMERA

3. Firmly screw the knob of the mounting bracket into the mounting hole.

4. Hold and snap the camera to the mounting bracket. Rotate the camera to adjust the view and check it using the live stream, which you can access in the Lindo Life app. Hold and snap the camera to the mounting bracket.

1 Wall Mounting

2 Ceiling Mounting

LET'S START

Download the App and Set up the System

Download the Lindo Life APP and follow the onscreen instructions to complete the setup.

MOUNT THE CAMERA

1. Turn the knob of the mounting bracket counterclockwise to loosen and disassemble it.

2. Drill holes with a 15/64 inch (6mm) drill bit, then insert the anchors into the holes, anchors are necessary for walls that are made out of hard materials such as concrete, brick, or stucco.

CHARGING THE CAMERA

Please fully charge the camera before first use.

LED Indicator	Charging: Blue light keeps on Fully charged: Blue light turns off
Power On (Already Paired)	Long press the power button for 2-3 seconds
Restore Default Settings	Long press the power button for 7 seconds

SELECT A LOCATION

Select a location where you can get the desired view. We recommend hanging the camera 7-10ft (2-3m) above the ground.

CHARGING THE CAMERA

Extend the battery life with Lindo Solar Panel (sold separately).

\* This page only shows the option to charge the camera with Lindo solar panel. Lindo solar panel is sold separately and is not included in this package.

HOW THE SYSTEM WORKS

The camera detects motion at your porch and allows you to warn the thieves.

If the distance between the location where your camera is installed and the router exceeds 20ft, you should add a repeater between them.
