A black Honeywell RS485 ATIL module is shown against a red background. The module has a rectangular shape with a slightly raised top and bottom. The front panel features the Honeywell logo on the left, a small display area with three LEDs labeled 1, 2, and 3 in the center, and a circular indicator on the right. The text "ISOLATED RS485" is printed above the LEDs, and "HMI" and "RS485 ATIL" are printed below them. A ruler is placed horizontally below the module, showing measurements in centimeters and millimeters.
