

Date: October 18, 2022

To Whom It May Concern:

We are allowing the submittal for a new FCC ID for Quarion Technology, Inc., Product DWETH101 which is a private label of Ciholas, Inc.

The new proposed FCC ID for Quarion Technology is:

- FCC ID: 2A8T6-DWETH101

The original Ciholas Inc. FCC ID is:

- FCC ID: 2ALIR-DWETH101 granted 2014 - 09 - 12

The equipment differs only in outward color and marketing markings such as label and colors, otherwise the equipment is the same.

Because the equipment is equivalent in design and manufacture to the original, the test results apply to the "new" product.

A new user guide has been provided with the same regulatory statements of the original, only changing marketing label and content, otherwise the original guide's purpose and content is being retained.

Signatory

Mike Ciholas  
President
