

Lidar model difference description

KRS50-10	KRS50-20
Lidar strafes range 50 meters, 10Hz	Lidar strafes range 50 meters, 20Hz

KRS50-10 and KRS50-20 are the same equipment. (The structure and material are completely consistent)

The KRS50-10 and KRS50-20 machines have different control frequency procedures.  
(Different frequencies correspond to different laser speeds)
