Dear Sir or Madam:

Telit Communications S.p.A. has applied for, and has been granted Federal Communications Commission (FCC) registration number RI7LE910CXNF, grant date of April 2, 2020, for its radio module which carries the Telit Communications S.p.A. model number LE910C1-NF.

This letter will grant permission on a one-time basis to Northeast Monitoring, a company in United State of Americas, to apply for a "Change of Identification" for the above mentioned radio module, with FCC.

Telit Communications S.p.A. understands that Northeast Monitoring must make this change in order to comply with Federal Communication Commission (FCC) regulations that apply to the Northeast Monitoring product called Gateway 2 (PN: NEMP00539), FCC identifier 2A8U9NEMP00539 and Telit authorize FCC to use information on file to grant such Change of Identification for this device.

Telit Communications S.p.A. is supplying the LE910C1-NF to Northeast Monitoring, unmodified and equivalent to the originally certified unit.

The original test results continue to be representative of and applicable to the equipment bearing the changed identification.

Sincerely,

Brian Tucker
SVP Quality Management
