Subject: Attestation Letter Regarding Professional Installation

FCC ID: 2A8UK-LEGSPRA

To confirm compliance to section 15.203 and KDB 353028 D01 Antennas Part 15 Transmitters v01 we declare the following description regarding the antenna and installation:

1	Professional installation does not permit use of any antenna with the transmitter; the permitted types of antenna must be specified.	The device must be used with the antenna supplied by BOSS Products. Antenna is HGV-2404U.
2	To qualify for professional installation, the applicant must explain why the hardware is not readily available to the average consumer.	The sprayer is a specialized piece of equipment that controls the application of de-icing fluid onto parking lots and roadways. Equipment is sold to commercial snow and ice contractors through dealers.
3	Marketing- Device cannot be sold via retail to the general public or by mail order; it must be sold to authorized dealers or installers only.	Device is not directly marketed or sold to the general public. Device is sold to authorized dealers.
4	Filing must show that intended use is not for consumers and general public; rather device is generally for industrial/commercial use.	Device is not for consumers and general public. Device is intended to be used by snow and ice contractors.
5	Explain what is unique, sophisticated, complex, or specialized about the equipment that REQUIRES it to be installed by a professional installer?	Device operates in a highly corrosive environment which lessens service life of antenna, professional installation is required to ensure proper protection. Antenna must be carefully positioned for proper signal strength. Poor or incorrect installation would mean

		delayed operation or disconnection during use.
6	Installation must be controlled.	Each installation is controlled by being conducted at an authorized dealer by trained professionals.
7	Installed by licensed professionals (e.g., device sold to dealer who hire installers).	Only a trained professional approved by the manufacture will conduct installations of the device.
8	Installation requires special training (e.g., special programming, access to keypad, field strength measurements made).	BOSS Products will provide all of the necessary information and training to correctly install the device.

Sincerely

Derek Meyer
